ABOUT HEITEC

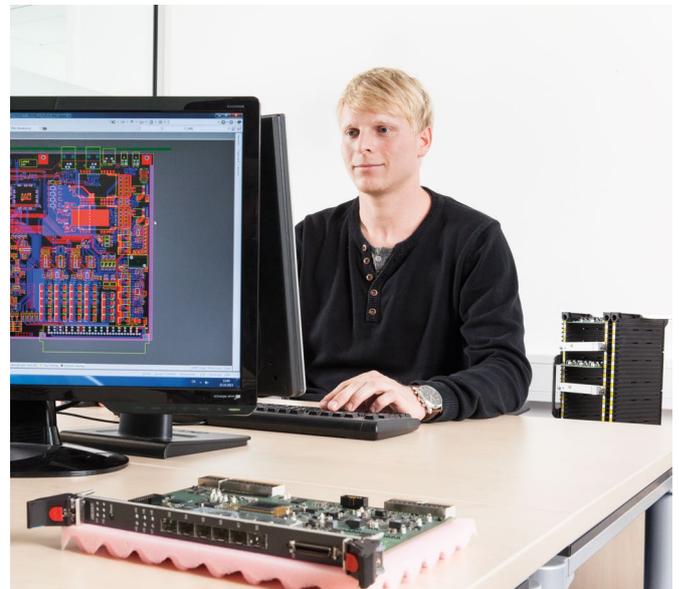

CORE COMPETENCE

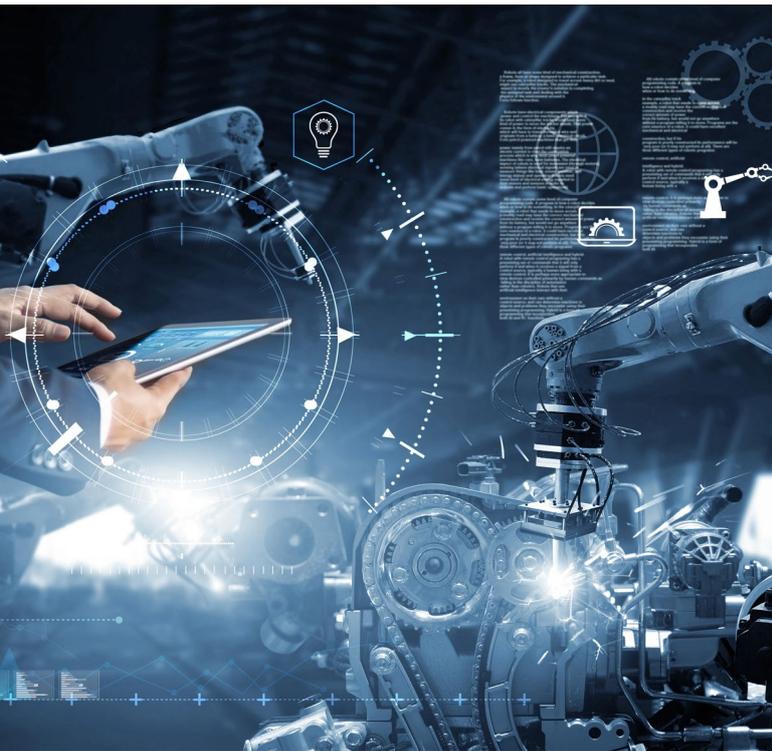

HEITEC is known for industrial expertise in automation, digitalization, electronics and special machinery and offers solutions, products and services. Over 2000 customers improve their productivity and optimise their products with the help of HEITEC's state-of-the-art, reliable and economical system solutions. A work force of over 1200 employees at numerous sites worldwide provides high-quality industry skills close to the customer.

Our experienced employees have in-depth, specialised technical knowledge and are also familiar with the specific requirements of industries such as:

- Automotive
- Energy
- Intralogistics
- Medical solutions
- Packaging and pharmaceuticals
- Railway- and maritime solutions
- Special machinery

We continue to find new applications for this accumulated knowledge and experience, providing a wealth of tried-and-tested solutions for a variety of fields. Our design and manufacturing processes are audited and certified to meet the requirements of their respective sectors, ensuring the robustness and long service life of our products.

DIGITALIZATION

Flexible production planning and control

HEITEC supports you in the digitalization of engineering, production and business processes in the industrial environment. The HEITEC 4.0 solution portfolio helps you increase the availability and productivity of machines and plants throughout their entire lifecycle, thanks to the gradual, benefit-oriented implementation of Industry 4.0.

HEITEC not only boosts productivity, it also creates many options for you to successfully implement new business models like digital services with the aid of innovative solutions.

AUTOMATION

Faster to networked production

The solution portfolio from HEITEC's Business Unit Automation includes measurement and test engineering, robotics, complete production systems and energy technology. As experts in automation and information technology, we can offer solutions for rapid production networking under the HEITEC 4.0 banner:

From digital plant and process planning to virtual commissioning and monitoring of plants and manufacturing processes: our solutions make it possible to develop a smart factory with adaptive machines and systems, as well as decentralised manufacturing controls.

Practical, step-by-step introduction of Industry 4.0

- Optimisation of processes, plant and quality
- Shortened commissioning periods
- Reduced throughput times
- Reliable planning thanks to real-time data
- Optimised material and component consumption
- Improved construction quality

What is it that makes HEITEC electronics so special?

Three areas of expertise – design, enclosure technology and manufacturing – that work together smoothly to meet the increasingly complex requirements of our customers:

Design: This is based on our history as an expert service provider in the area of electronic design since the 1980s.

Enclosure technology: A stable, modular system of enclosure technology and an extensive library of proven hardware, software and mechanical building blocks from Rittal's former portfolio of electronic packaging systems.

Manufacturing: Since we understand the importance of flexible and cost-effective production, especially for low to medium module quantities, our portfolio includes the right manufacturing capabilities to meet your needs.

ELECTRONICS

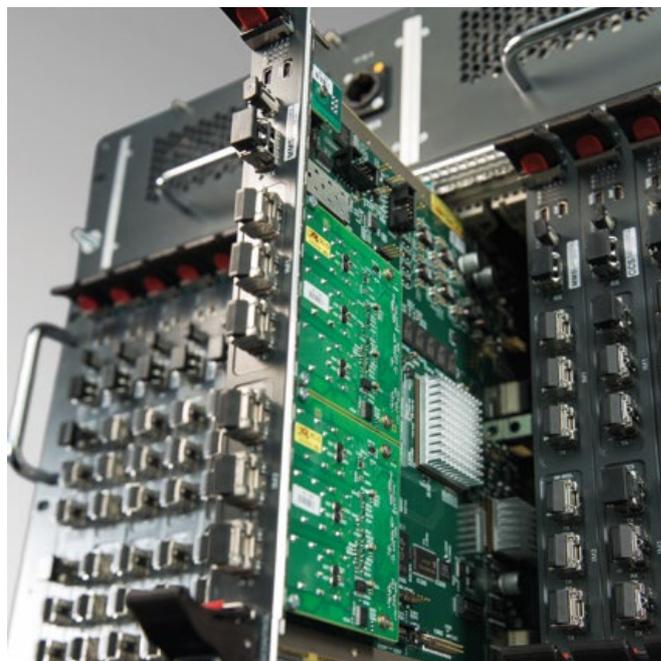

From idea to product

Our comprehensive portfolio helps you to realise your system solution faster, more cost-effectively, with great flexibility and safety – from the module to the board design, all the way to the complete enclosure. Thanks to our extensive experience from many projects, with differing levels of added value in a range of demanding industries and for many different target applications, we understand your specific requirements and reflect them in our solutions.

We have an extensive library of proven hardware, software and mechanical building blocks to develop tailored solutions for every project.

Expertise in tailor-made solutions

- Customer-specific products and solutions implemented faster, safer and cost-effectively
- Products perfectly optimised thanks to in-depth knowledge of the industry – including for demanding, regulated markets
- The same high design and manufacturing quality for both small and large series
- Optimised products with a large test depth
- Ongoing development of products throughout the entire lifecycle

SPECIAL MACHINERY

Experience meets innovation

Based on standardised concepts, HEITEC supplies you with customised machines and systems to solve your tasks. This reduces costs and increases the reliability of your production processes.

Over 40 years of experience in special machinery, mechanical engineering and robotics, guarantee you a high degree of flexibility, availability and productivity for your production systems.

With over 300 turnkey systems installed worldwide, we are your partner in special machine construction.

Our experts support you in:

- Assembly systems
- Handling systems
- Industrial X-ray technology
- Measuring and testing technology
- Systems for key and lock technology

QUALITY IS AT THE CORE OF OUR ACTIVITIES

Our products and services are based on established and certified processes, methods and quality management systems. In addition, we have industry-specific process know-how. Our competence in the design and manufacture of the corresponding components and systems is confirmed by a number of certificates.

Certifications, Standards, Guidelines

Quality	ISO 9001 ISO 27001
Medical	EN ISO 13485 EN 14971 EN 60601 EN 62304
Energy	NSQ 100 KTA-1401 KTA-3505
Transportation	EN50155/IEC 60571 EN50128
Aviation & Aerospace	DO-160 DO-178 DO-254
Communication	ETSI (European Telecommunications Standards Institute)
Industrial Automation	IEC 61508 IEC 61000 NEBS (Network Equipment-Building System)
19-inch-technology	IEC 60297 IEC 60917 IEC 61587

COMPETENCE AND KNOW-HOW

Development of customer-specific systems

Manufacturing and testing of electronic products for batch sizes starting at quantity 1

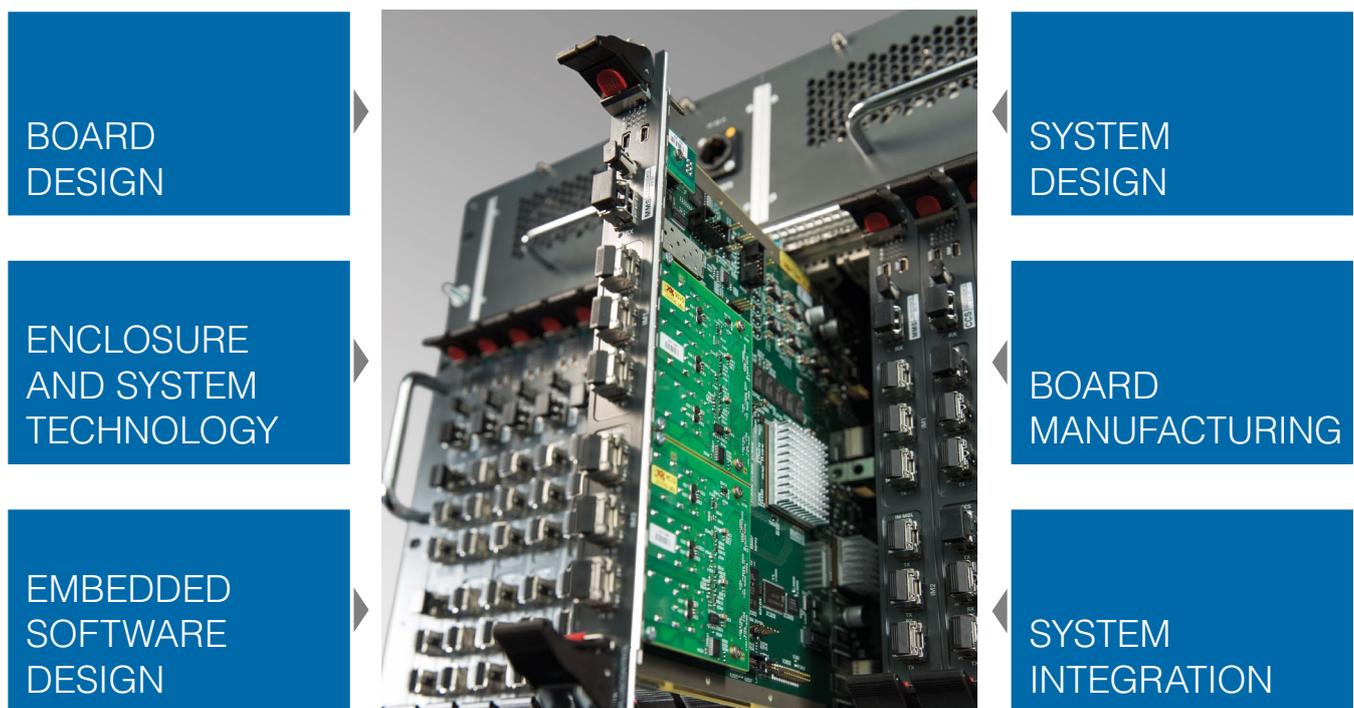

Professional enclosure technology from standard products to system solutions

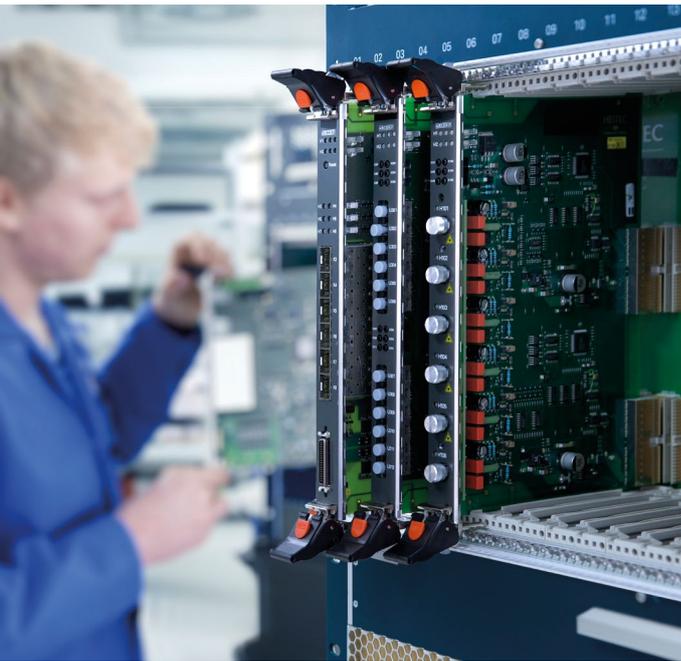

We help you build the best system solutions

Our experience ranges from defining the system architecture, through the development and implementation of individual components, to the manufacture and integration of complete systems, throughout their entire lifecycle. Coordinated processes guarantee excellent quality and provide the flexibility to adapt rapidly when new application requirements demand it. With their extensive technical know-how our specialists have a comprehensive understanding of the industry-specific requirements. Our design and manufacturing processes are coordinated with these requirements, and are audited and certified.

Our solutions minimize your design and production risks and can be applied to your product at lower cost and on time. We look after your products across their whole product lifecycle. We strive to offer you the best system solution every time, one that will give you a lasting competitive edge.

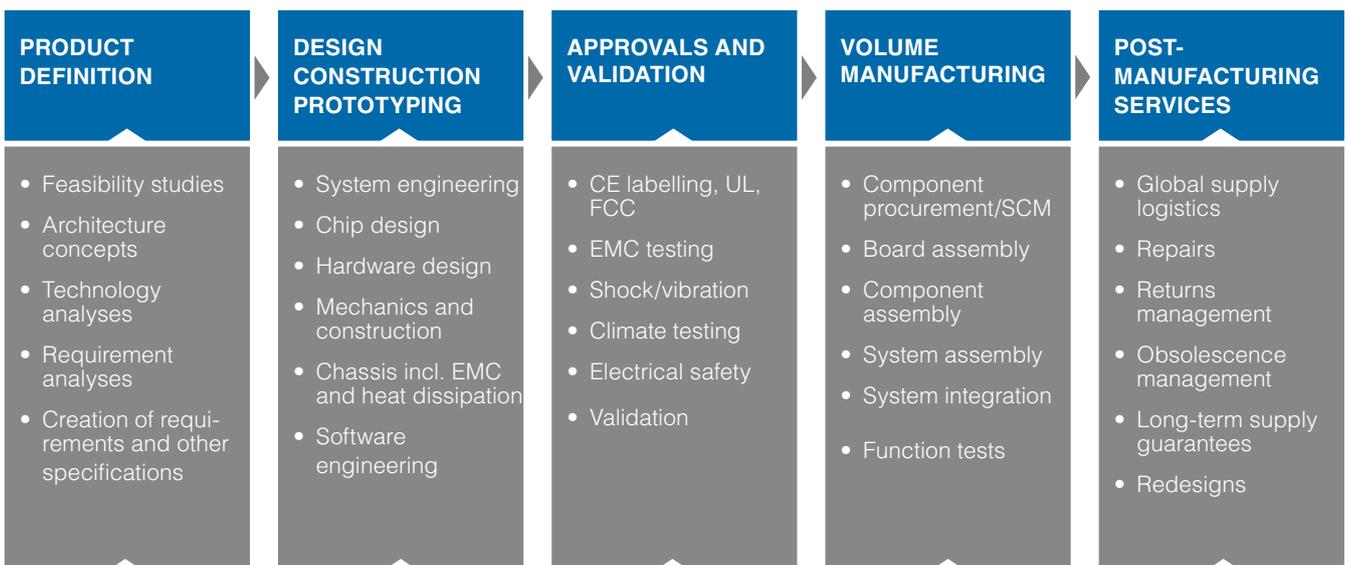

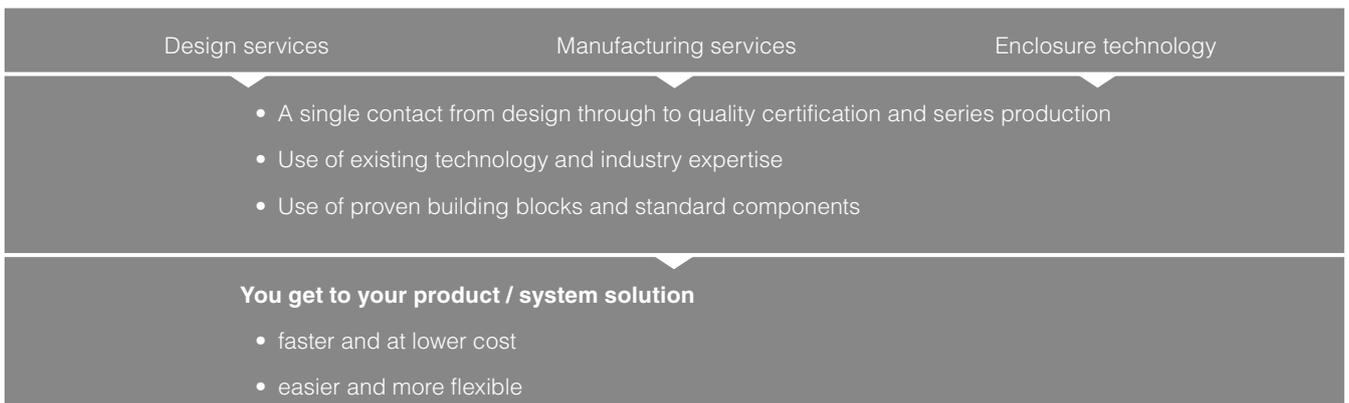

Everything comes with the same quality objective – whether it's a "simple" board or a more complex system comprising hardware, software and enclosure technology.

From idea to product: Expertise in tailor-made solutions

To take your electronic product from concept to reality, you need reliable partners. We understand the steps and processes required to move from system design, through prototyping, necessary testing and inspection, to series production. We know how important it is for design, manufacturing and service interfaces to mesh together. We create targeted industry applications with all the necessary certifications. Whether it's electronic modules with the associated firmware, rail-mounted chassis systems in rail-mounted format or any kind of industrial PC for complex, high-availability systems, our teams will be there even after the project is completed to provide consulting, change management, after-sales service and long-term availability. HEITEC can provide everything from a single source – you maintain an overview of your projects and we provide the support and coordinate all the processes.

Use of building blocks:

- Library elements (software, mechanics and electronics)
- Wealth of experience from prior projects
- Enclosure technology components and system platforms

YOUR PARTNER FOR ELECTRONIC CHASSIS AND SYSTEMS

The current product portfolio offered by HEITEC AG in the area of electronic packaging systems and chassis is based originally on the corresponding product range from Rittal. Starting in early 2010, HEITEC has been steadily taking over this product range from Rittal and integrating it into its current range of products and services – constantly refining and expanding it. With the establishment of the Chinese subsidiary in 2020, the takeover of the electronic packaging business on an exclusive and global basis was fully completed.

2010

HEITEC

CUSTOMER-SPECIFIC ELECTRONIC PACKAGING SYSTEMS AND COMPONENTS

HEITEC

CONSISTENCY AND CONTINUITY

HEITEC not only maintains the original Rittal part numbers but guarantees consistency, product longevity, supply chain security and continuous enhancement of its broad product range.

HEITEC was originally able to guarantee global customer support thanks to its partnership with Rittal subsidiaries abroad. Today, HEITEC has its own global network of sales partners that ensure customer support right around the world.

ABOUT HEITEC

PRODUCTS AND SERVICES

HEITEC's comprehensive portfolio of standard products and customised solutions provides you with professional enclosure technology – we 'package' your electronics to suit your applications, every time.

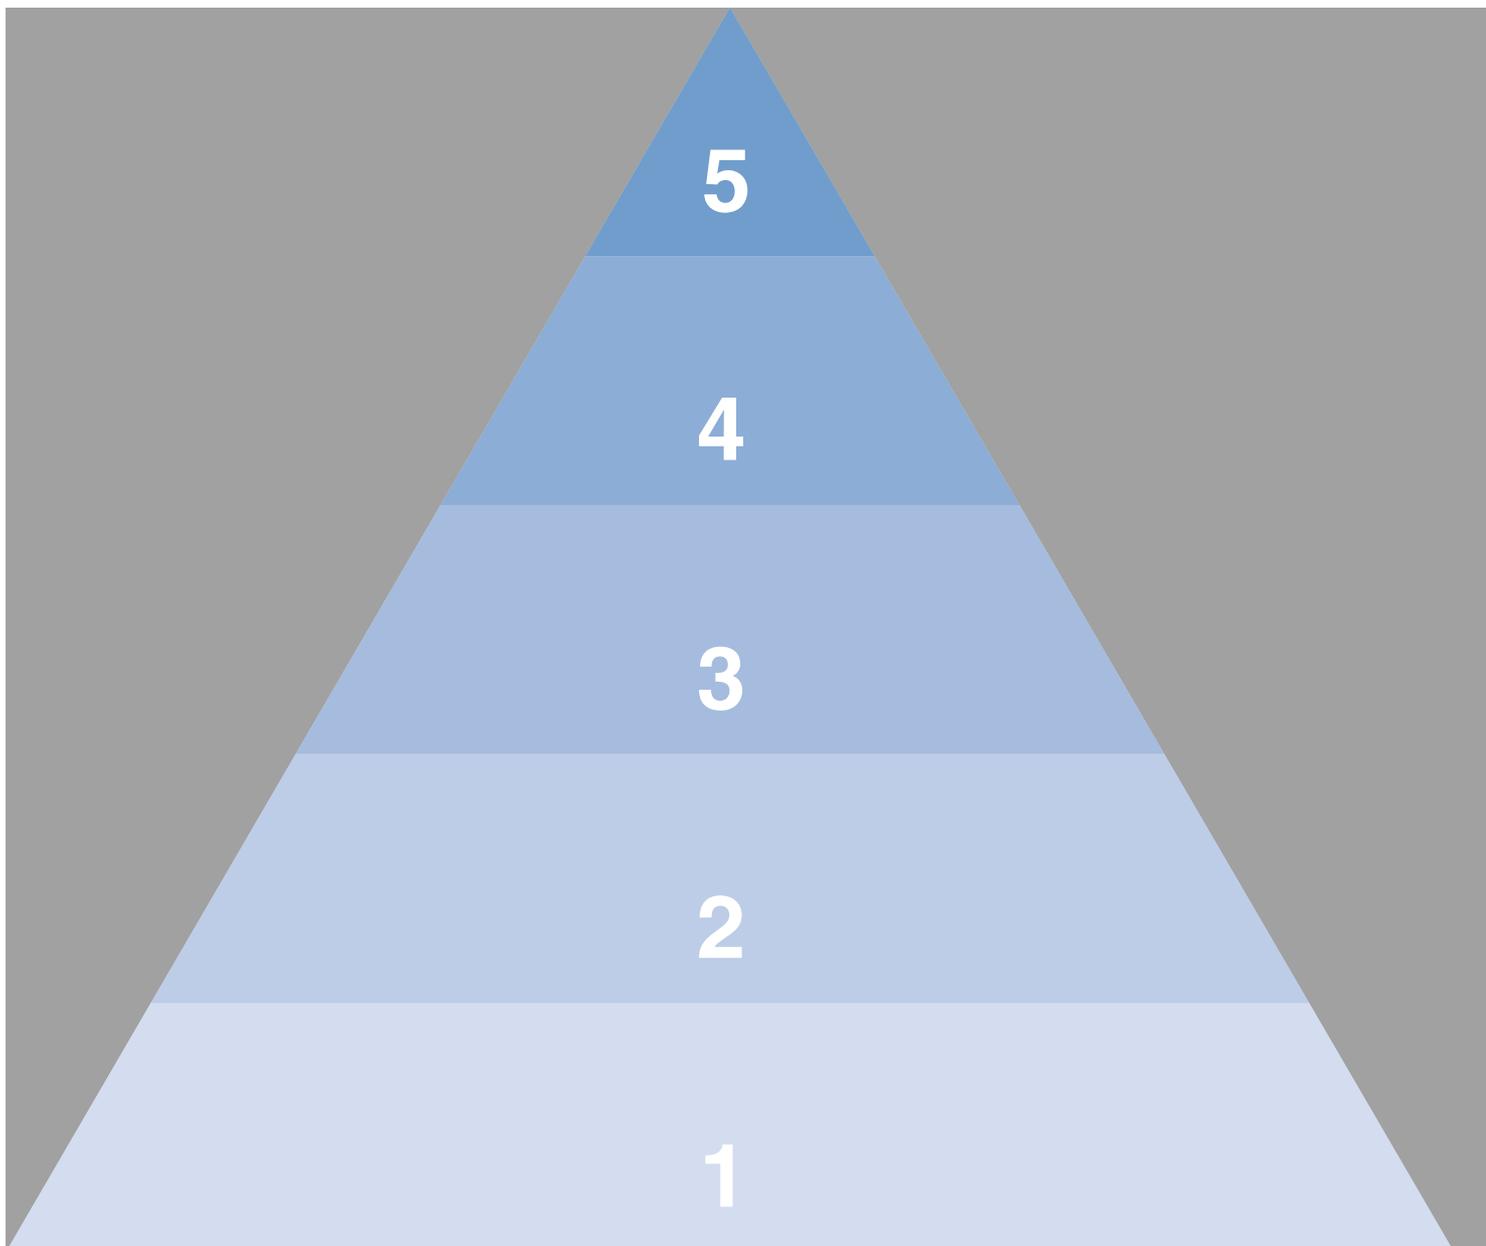

We are constantly expanding this broad spectrum of chassis components, subracks, instrument cases and system enclosures as well as system platforms. We also offer individual adaptations to these products, in addition to special, customer-specific developments.

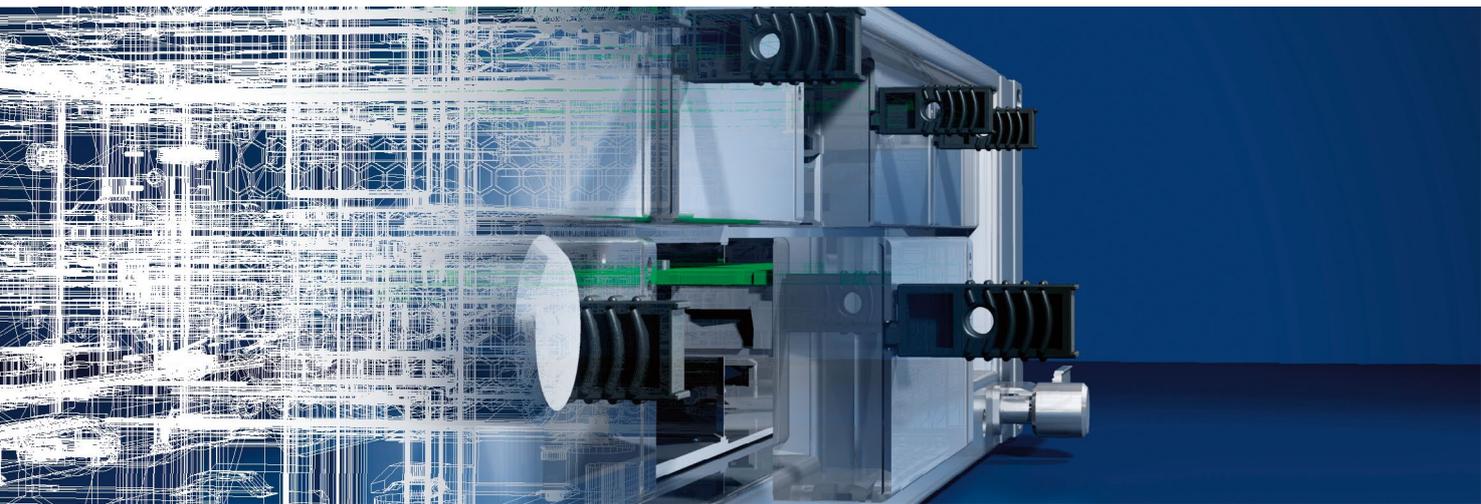

Selecting the right enclosure technology is the basis for an efficient end product. Our skills are based on many years of experience covering everything from mechanical

design to ensuring electromagnetic compatibility and effective heat dissipation concepts for highly complex systems. If you prefer to take responsibility for most of the system integration process yourself, we can supply individual components, pre-assembled components or system enclosures to suit your requirements. If you prefer pre-integrated or fully integrated solutions, incorporating your own hardware and software as required, we can provide a complete service through to a customised system solution.

We support you in exactly those areas that match your business model best.

From components through to the complete system

SYSTEM SOLUTION

Customer-specific, ready-to-use, fully integrated with hard- and software

PRE-INTEGRATED SYSTEMS

Partial or full integration of active modules and/or software

SYSTEM PLATFORMS

Cases incl. ventilation/cooling, power supply, backplane

CASES AND ENCLOSURES

Subracks, instrument cases and system enclosures, industrial PC, chassis, box-type plug-in units

COMPONENTS

Individual components and accessories
e.g. handles, front panels, EMC components

ABOUT HEITEC

PRODUCTS AND SERVICES

HEITEC is more than just a manufacturer of high-quality chassis solutions. A range of services maximise customer benefits, even for small quantities.

It doesn't matter if you want your preferred components assembled to suit your requirements or if you need our experienced manufacturing staff to assemble all the mechanical, electrical and electronic components. We also strive to offer a long-term supply capability and lead times to suit customer requirements.

Configuration

The wide range of variations available for chassis products means they can be combined easily and in many different ways

- Using the watchlist on the website, it is easy to compare products and make inquiries
- Easy-to-follow product tables make it easy to put your desired product together

Assembly

HEITEC production facilities offer the latest in certified assembly and manufacturing options

- Skilled and reliable assembly, including final inspections, even for small unit quantities
- Assembly of individual parts, wiring or even complete system configuration – depending on what the customer needs

Logistics

HEITEC's experienced logistics team can develop individual logistics plans to suit customer requirements

- Holding stocks of critical components for your project means HEITEC can guarantee a long-term delivery capacity
- HEITEC is a known consignor that delivers worldwide

Customised adaptations and system solutions

HEITEC can provide adjustments from single-part level through to customer-specific system solutions

- Front panel processing, special colours for chassis and decorative elements
- Design and manufacturing of individual, ready-to-use system solutions

Ready-to-use system with integrated hardware and software, e.g.

- Mobile charging station for cars

Subracks/chassis, e.g.

- Small chassis
- DIN rail chassis

Customised spare parts processing, e.g.

- Front panel adaptations

Individual

19-inch format

Besides a multitude of standard products in this catalogue, we provide individual, tailor-made solutions.

We create custom products, such as custom drilled, milled, or printed front panels, subracks or system enclosures that meet your exact requirements, as well as system configurations that are tailor-made for your application.

We create the right product for you!

Please do not hesitate to contact our specialists.

HeiPac subrack family

A minimum of components – a multitude of applications

SUBRACKS

The modular concept of HeiPac subracks facilitates a wide range of application options with a minimum of components.

All HeiPac subracks are based on the same horizontal rails and system components. The difference lies in the design of the side panels and installation options. The only exception is the HeiPac EASY subrack system, which is based on a horizontal rail system of its own. All front systems can be universally applied for all subrack families.

The subracks are shock and vibration-tested and comply with IEC 60297-3-101, 102 and 103.

HeiPac Vario

Universal 19" subrack system

SUBRACKS

HeiPac Vario / Vario EMC

For standard applications/EMC applications or complex installations

Applications

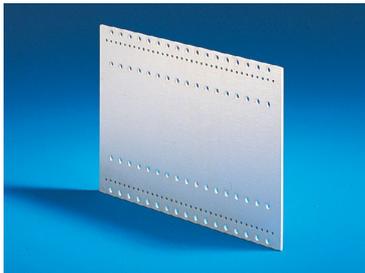

Subrack system for standard applications or complex installations. Suitable for installation of standardised PCBs or plug-in units from 160 mm up to 400 mm depth.

Technical specifications

- 482.6 mm (19") subrack according to IEC 60297-3
- 2, 3, 4, 6, 7, 9, 10 and 11 U
- For board depths up to 400 mm
- Side panels of aluminium, clear-chromated
- 10 mm mounting grids for horizontal rails
- Rear equipment for installation of backplanes or connectors
- Separate 19" flanges
- EMC version including EMC gaskets

Benefits at a glance

- Side panels with 10 mm mounting grid
- The HeiPac Vario is upgradeable to EMC
- 19" flanges optionally for front/rear mounting
- Wide range of standard sizes available
- For installation of backplanes or connectors
- Broad range of accessories

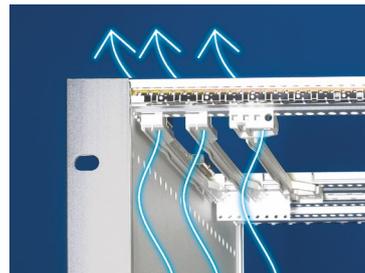

10 mm pitch pattern of holes allows many varieties

Components made of solid aluminium alloy

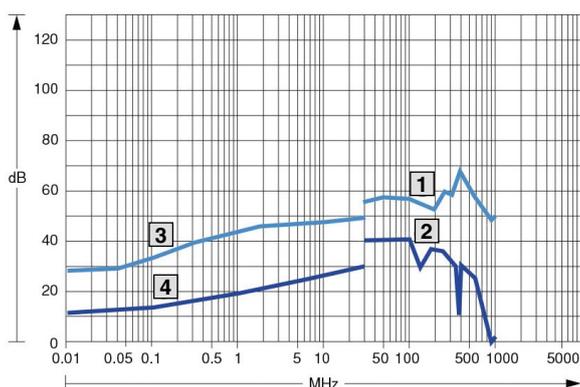

Contact springs made of stainless steel provide high EMC protection

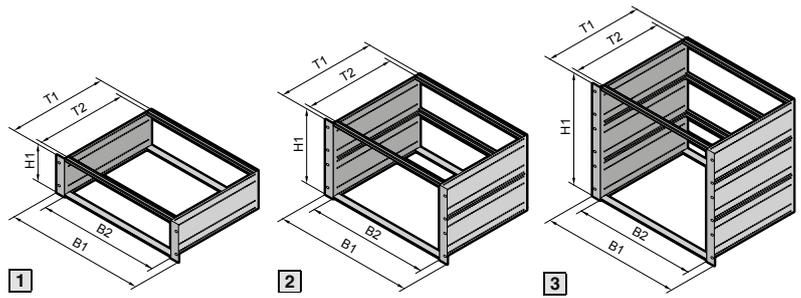

Effective heat dissipation due to open design

SUBRACKS

HeiPac Vario ECO

Economical 19" subrack system for standard applications

Applications

Economical subrack system for standard applications. Suitable for installation of standardised PCBs or plug-in units of 160 and 220 mm depth.

Technical specifications

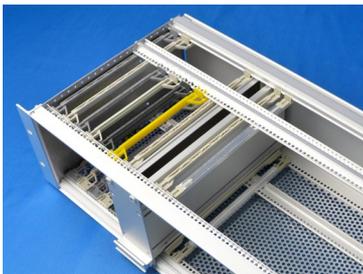

- Based on the HeiPac Vario subrack family, the basic components (horizontal rails) of the HeiPac Vario ECO are partly compatible with the HeiPac Vario.
- 482.6 mm (19") subrack according to DIN 41494, part 5/ IEC 60297-3
- 3 and 6 U
- For board depths: 160 mm and 220 mm
- Side panels of sheet steel, zinc-plated
- Pre-configured assembly points for horizontal rails
- Rear installation for backplanes (or optional for connector mounting)
- Separate 19" flanges

Benefits at a glance

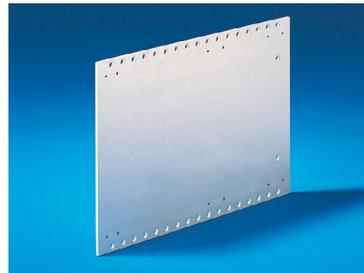

- Fast and easy handling
- Low-cost version
- Upgradable for assembly of backplanes or connectors (see page 87 et seq.)

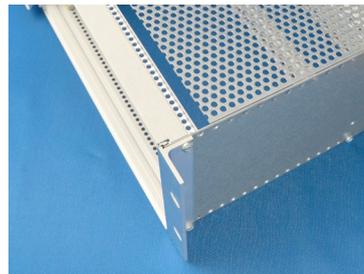

Optional EMC upgrade ensures high EMC protection

A wide range of accessories allow manifold expansions

Side panels made of zinc-plated sheet steel

Plug-in top covers facilitate an easy assembly

HeiPac Vario ECO 3 U, 6 U

Material/surface finish

Side panels: 1.5 mm sheet steel, zinc-plated
 Horizontal rails: Extruded aluminium section, clear-chromated
 Flanges: Extruded aluminium section, clear-chromated

Supply includes

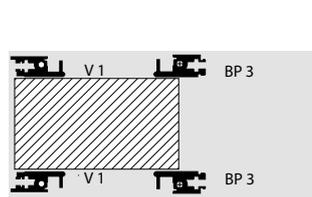

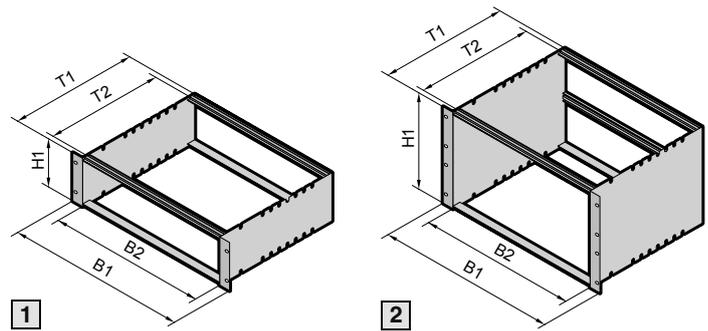

Side panels
 Flanges
 Horizontal rails
 Threaded inserts
 Assembly screws

Tests

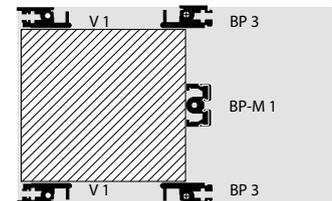

Shock and vibration tested according to:
 IEC 60068-2-6
 IEC 60068-2-27

Standards

HeiPac subracks are based on the system dimensions of IEC 60297-3.

SUBRACKS

HeiPac Vario COMPACT

For mounting plates or top-hat rails

Applications

Subrack system for direct mounting in a cabinet. Mounting either on top hat rails or on mounting plate. Suitable for installation of standardised PCBs or plug-in units.

Technical specifications

- Based on the HeiPac Vario subrack family, the basic components of the HeiPac Vario COMPACT are compatible with the HeiPac Vario.
- Subrack according to IEC 60297-3
- 3 and 6 U
- Side panels of aluminium, clear-chromated
- For board depths up to 160 mm
- Rear equipment for installation of backplanes
- Installation width: 21 and 42 HP

Benefits at a glance

- Direct mounting on a mounting plate or a top-hat rail
- Variable cable entry from bottom/top for EMC version
- Side panels with 10 mm mounting grids for variable system assembly
- Suitable for mounting backplanes
- Optionally in EMC version

Compact dimensions in 21 HP and 42 HP

Adapter for rail mounting

Contact springs provide high EMC protection

Flange for wall-mounting

HeiPac Vario Compact 3 U, 6 U

Material/surface finish

Side panels: 2.5 mm aluminium, clear-chromated
 Horizontal rails: Extruded aluminium section, clear-chromated
 Flanges: Extruded aluminium section, clear-chromated

Supply includes

Side panels
 Threaded inserts
 Horizontal rails
 Insulating strips
 Flanges for mounting plates
 Front/rear panels for top-hat rail adaptors

EMC version additional includes:

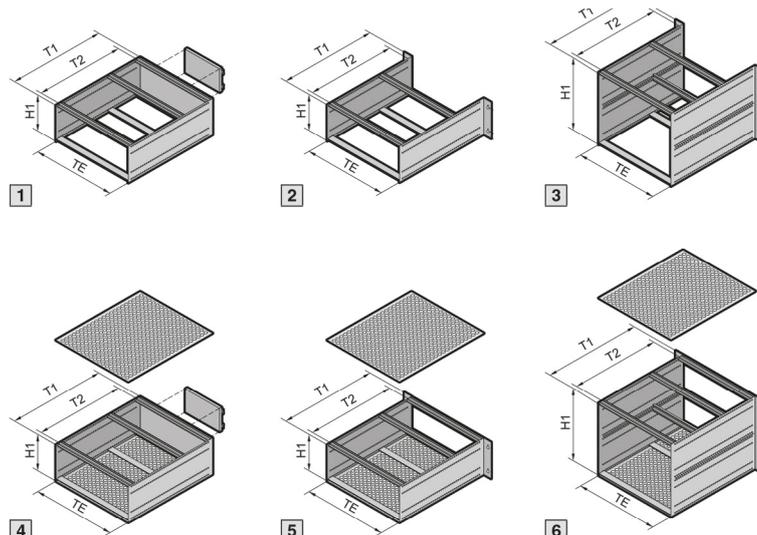

EMC gaskets
 Covers
 Front/rear panels
 Cable entry

Tests

Shock and vibration tested according to:
 IEC 60068-2-6
 IEC 60068-2-27

Standards

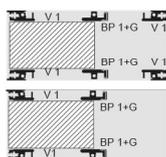

HeiPac subracks are based on the system dimensions of IEC 60297-3.

SUBRACKS

HeiPac Vario HEAVY

For heavy loads in mobile applications and tough ambient conditions

Applications

The standard product line HeiPac Vario HEAVY was specifically designed for use under rough environmental conditions and for mobile applications, such as for example railway or naval technologies. The subrack system is shock and vibration-tested in accordance with EN 50155 and DIN EN 61587-1&2, and is designed to accommodate standardised PCBs.

Technical specifications

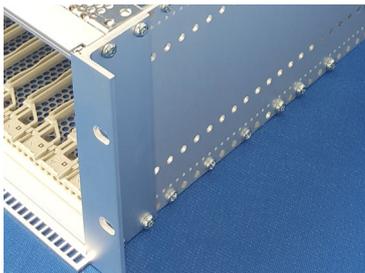

- Rack-mount system in accordance with IEC 60297-3
- 3 and 6 U
- Clear-chromated aluminium side panels
- For card formats up to 220 mm deep
- Front horizontal rails with 10 mm extension for injector/extractor handles
- Horizontal rails with double screw fastening
- Reinforced mounting flange
- Rear equipment for installation of backplanes
- Installation width: 84 HP
- Up to 10 kg maximum total weight of the plug-in units
- Up to 60 kg load capacity due to the flanges

Benefits at a glance

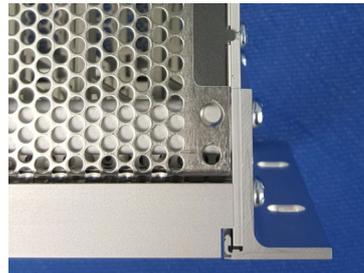

- Side panels with 10 mm mounting grids for variable system assembly
- For mounting backplanes
- Optionally in EMC version

Extensive accessories allow for a wide range of expansion options

Horizontal rails with double screw fastening provide high mechanical strength

Reinforced flange ensures high resistance to shock and vibrations

EMC can be retrofitted

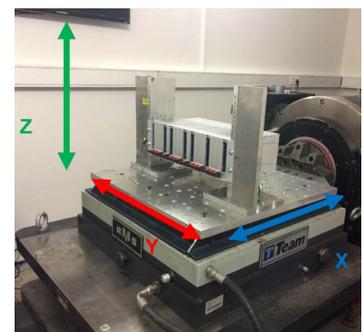

Shock/vibration profile HeiPac Vario HEAVY

Shock/vibration testing in accordance with: IEC 61587-1

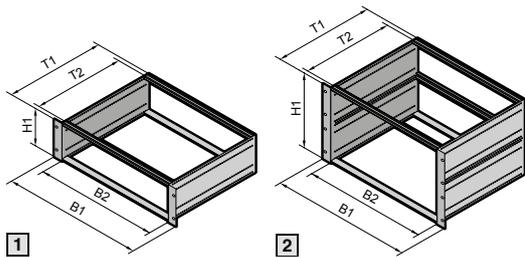

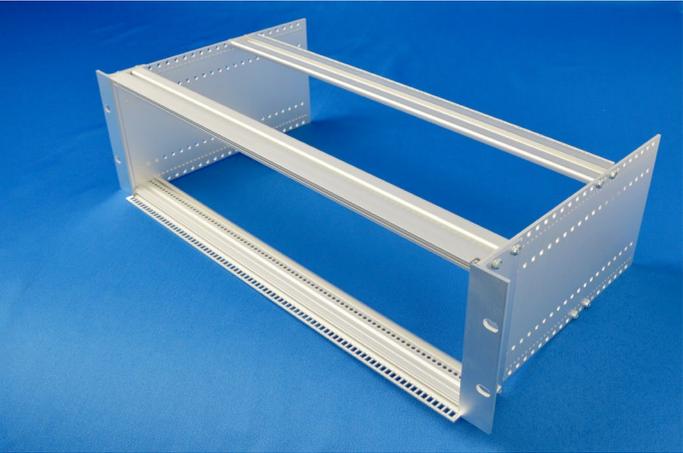

DL2V/DL2S for use in different locations

Shock/vibration testing in accordance with: EN 50155

EN 61373, category 1, class B

HeiPac Vario HEAVY 3 U, 6 U

Material/surface finish

Side panels: 2.5 mm aluminium, clear-chromated
 Horizontal rails: Extruded aluminium section, clear-chromated
 Flanges: Extruded aluminium section, clear-chromated

Supply includes

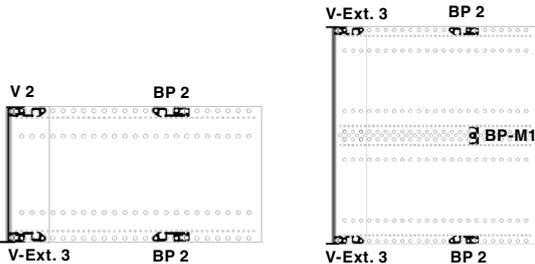

Side panels
 Flanges
 Horizontal rails
 Threaded inserts
 Assembly screws

Tests

Shock and vibration tested according to:
 DIN EN 61587-1&2
 EN 50155

Standards

HeiPac subracks are based on the system dimensions of IEC 60297-3.

SUBRACKS

HeiPac EASY

Economical, rugged 19" subrack system

Applications

Subrack system for standard applications that require easy handling and fast assembly. Suitable for installation of standardised PCBs or plugin units up to 400 mm depth.

Technical specifications

- 482.6 mm (19") subrack according to IEC 60297-3
- 3 and 6 U
- For board depths: 160 mm, 220 mm, 280 mm, 340 mm, 400 mm
- Fast and easy assembly due to pre-assembled screws and longitudinal holes in the side panels
- Horizontal rails with double screwed joint
- Material: aluminium, noncorrosive
- 60 mm mounting grids for horizontal rails
- Rear horizontal rails with integrated contact surface
- Rear equipment for installation of backplanes or connectors
- Separate 19" flanges

Benefits at a glance

- Fast and easy handling by pre-assembled screws in the horizontal rails
- Top covers easily insertable
- Horizontal rails with integrated contact surface (insulating strips cannot be used)
- Double screw joints of horizontal rails ensure stability even for high loads

EASY completely assembled in two minutes

Top covers easily to retract

Horizontal rails with double screwed joint ensure a higher mechanical resilience

EASY to handle and yet extremely versatile

Requirement Profile HeiPac EASY

EN 61587-1; Requirement Category C2

Climatic tests: cold, dry and damp heat, cyclic

EN 61587-1; Requirement Category A1

Industrial climate

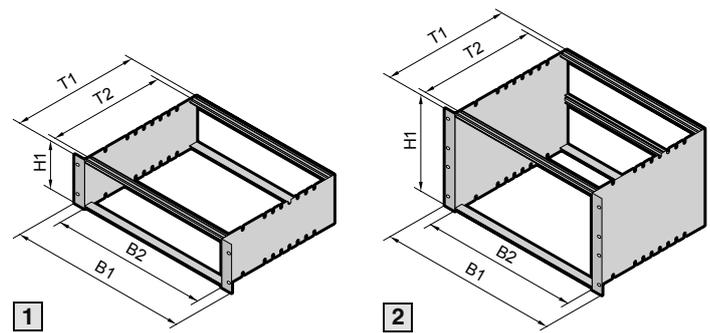

IEC 61587-1; Requirement Category SL1

Mechanical tests: mechanical loads (static)

IEC 61587-1; Requirement Category DL1

Mechanical loads, industrial applications (dynamic)

HeiPac EASY 3 U, 6 U

Material/surface finish

Side panels: 2 mm aluminium, unplated
Horizontal rails: extruded aluminium section, noncorrosive
Flanges: pre-anodised

Supply includes

Side panels
Flanges
Horizontal rails incl. pre-mounted threaded inserts and assembly screws

Tests

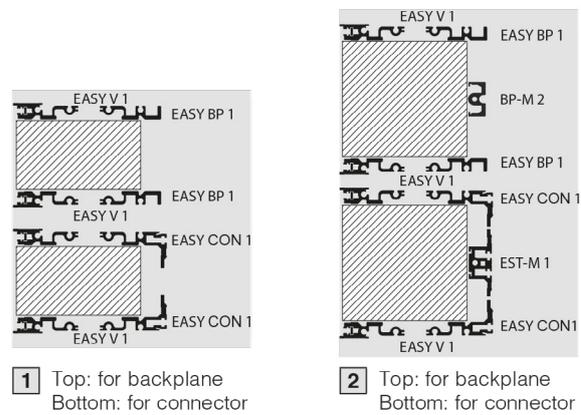

Shock- and vibration tested according to:
IEC 60068-2-6
IEC 60068-2-27

Standards

HeiPac subracks are based on the system dimensions of IEC 60297-3

Note

Backplanes can be mounted directly on the rear horizontal rails. Isolating strips cannot be used.

HEITEC Instrument Cases and System Enclosures

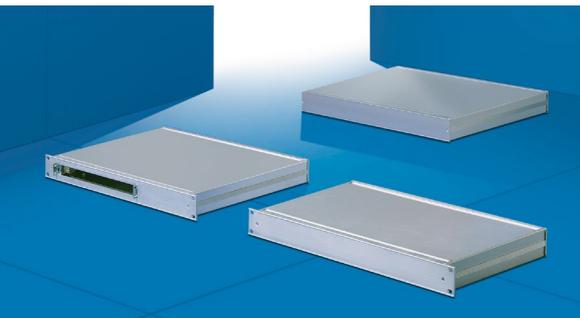

High Functionality and Modern Design

INSTRUMENT CASES AND SYSTEM ENCLOSURES

The HeiCase instrument case impresses with its modern design and high functionality. Particular features include the numerous colour variants and the all-metal enclosure construction. The HeiPac Vario-Module system enclosure (instrument case or rack-mount enclosure) is fully compatible with the latest HeiPac subrack range, making it ideal for individual configuration and assembly as a microcomputer system.

At just 1 U and 2 U, the HeiBox system enclosure offers a high packaging density in the smallest space.

HeiBox ALU

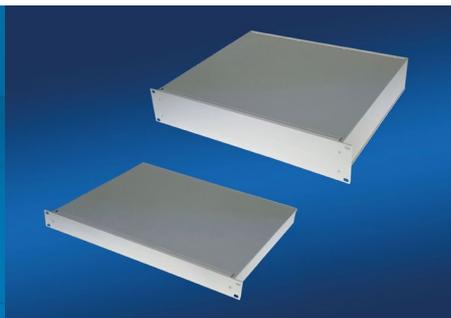

High-quality 1 U 19" system enclosure

- Optionally for use as an instrument case or rack-mount enclosure
- For horizontal installation of standardised 6 U boards
- For individual expansion
- High-quality aluminium design
- Extremely easy to assemble
- EMC upgradeable

→ Page 36

HeiBox ECO

Economical 1 U and 2 U 19" system enclosure

- Optionally for use as an instrument case or rack-mount enclosure
- For individual expansion
- Extremely easy to assemble
- Low-cost design made of sheet steel
- EMC upgradeable

→ Page 38

HeiPac Vario-Module

Universal 19" system enclosure

- Optionally for use as an instrument case or rack-mount enclosure
- Varied selection of sizes
- Flexible design options
- Wide range of accessories
- EMC upgradeable

→ Page 40

HeiCase

Universal instrument case

- Instrument case for the installation of 19"-slide-in assemblies and elements
- For individual expansion
- Outstanding stability
- Varied selection of sizes
- Flexible design options
- Wide range of accessories
- Modern design

→ Page 52

IPC Chassis

Industrial-PC Chassis

- Suitable für 19-inch installations
- Customer-specific configuration
- Modern, rugged design
- Custom painting and labelling available
- Accessories for individual expansion

→ Page 65

System platforms

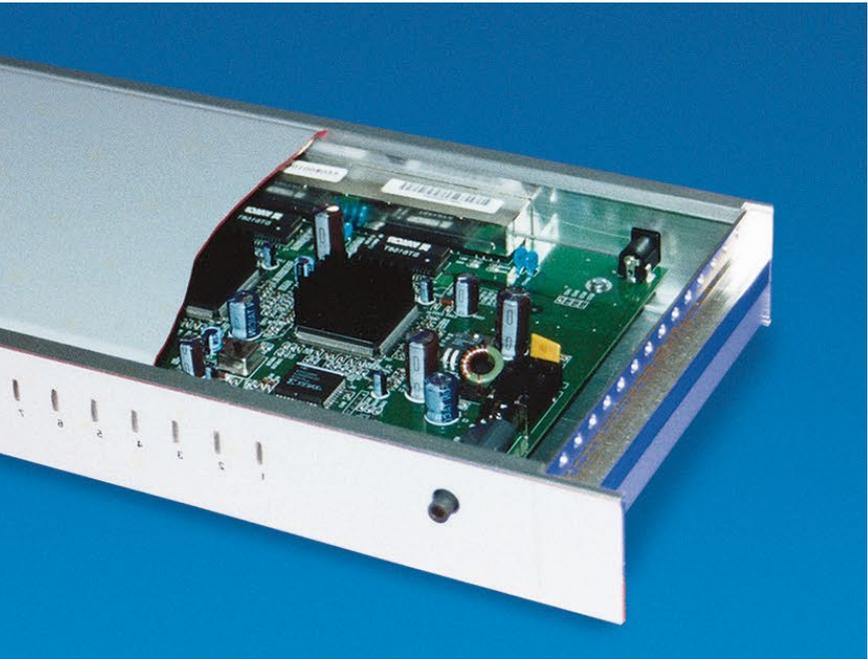

Ready-to-use system platforms

- System platforms for CompactPCI® SERIAL and VPX/openVPX
- Low-priced systems for the construction of industrial PCs according to specifications
- Individual configurations and cooling concepts on request
- Corresponds to IEC 60 297-3 and IEE 1101.1

→ Page 68

INSTRUMENT CASES AND SYSTEM ENCLOSURES

HeiBox ALU

Innovative system enclosure for standard applications

Applications

The HeiBox ALU is optionally for use as an instrument case or rack-mount enclosure. Accommodates Eurocards/ Double Eurocards (horizontal), switches, patch panels, routers or modems.

Technical specifications

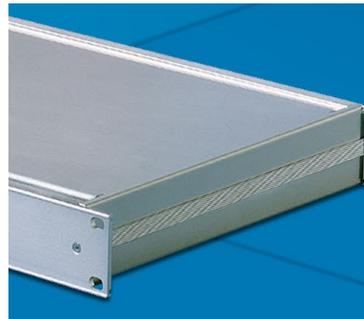

- 19" system enclosure, complies with IEC 60297-3
- Optionally for use as an instrument case or rack-mount enclosure
- Height: 1 U
- Installation width: 84 HP
- Optionally with mounting kit for 1 Double Eurocard
- Mounting plate (accessory) for individual population
- Extruded aluminium section
- Protection category IP 40

Benefits at a glance

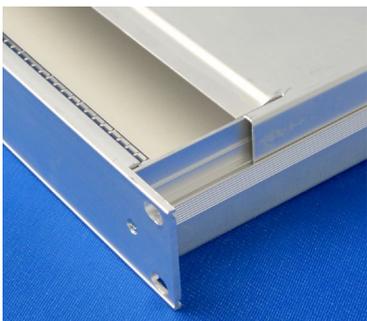

- Minimum space requirement
- Easy and fast mounting
- High-quality design
- EMC upgradeable
- Individual assembly according to customer needs

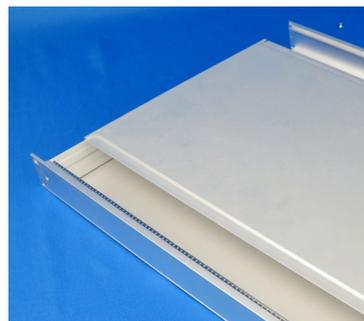

Installation of standardised 6 U boards with mounting kit

Solid, high-quality design of extruded aluminium section

High EMC protection with additional EMC kit

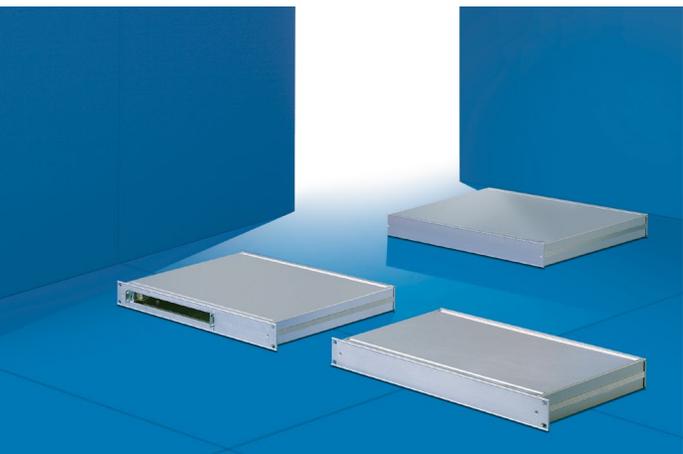

Easy to assemble with just 4 screws

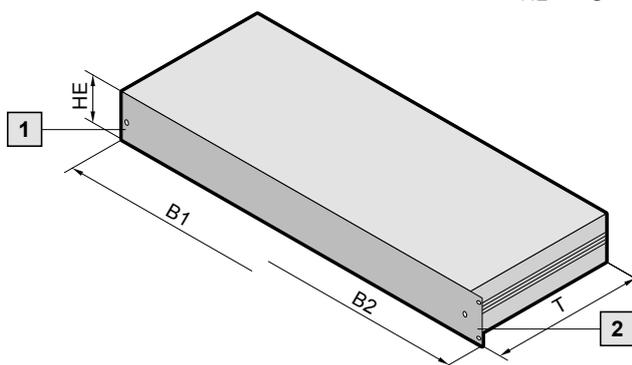

Front/rear panel processing and printing as required

HeiBox system enclosure 1 U

B = Width
T = Depth
HE = U

- 1** Equipped as an instrument case
- 2** Equipped as a rack-mount enclosure

Technical specifications

System enclosures 1 U, 150, 200, 250, 300, 350 mm deep.
Easy to assemble with just 4 screws.
Optionally for use as an instrument case or 19" rack-mount enclosure.
Front panel to hold an overlay to conceal the screws.
Maximum interior space.
Optional EMC upgrades with additional EMC gaskets.
Option of installing electronic boards such as 1 VME or CPCI board horizontally.

Design

System enclosure 1 U, to IEC 60297-3.

Supply includes

- Cover
- Front panel
- Rear panel
- Side panel
- Assembly parts

INSTRUMENT CASES AND SYSTEM ENCLOSURES

HeiBox ECO

Cost-efficient system enclosure for standard applications

Applications

The HeiBox ECO is for use as a rack-mount enclosure. Accommodates Eurocards/Double Eurocards (horizontal), switches, patch panels, routers or modems.

Technical specifications

- 19" system enclosure, complies with IEC 60297-3
- For use as a rack-mount enclosure
- Height: 1 U and 2 U
- Installation width: 84 HP
- Enclosure made of sheet steel, front panel and rear panel made of extruded aluminium section
- Optionally available as an instrument case
- Optional: highly effective EMC protection

Benefits at a glance

- Minimum space requirement
- Cost-efficient and solid
- Easy and fast mounting
- EMC upgradeable
- Individual assembly according to customer needs

Available as instrument case with individual spray finish upon request

Easy to assemble with just 4 components

High EMC protection with additional EMC kit

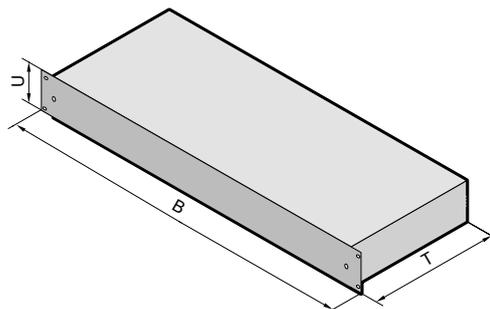

Aluminium rear panel easy to process

Front/rear panel processing and printing as required

HeiBox ECO system enclosure 1 U and 2 U

Technical specifications

System enclosures 1 U and 2 U, 150 mm up to 400 mm deep.
 Easy to assemble with just 4 components.
 Optionally for use as an instrument case or 19" rack-mount enclosure.
 Maximum interior space.
 Optional EMC upgrades with additional EMC gaskets.

Design

System enclosure 1 U and 2 U, to IEC 60297-3

Supply includes

- Front panel
- Cover
- Base tray
- Rear panel
- Assembly parts

Material/surface finish

Base tray:	sheet steel
Front/rear panel:	Extruded aluminium section, clear-chromated
Cover:	sheet steel

Note

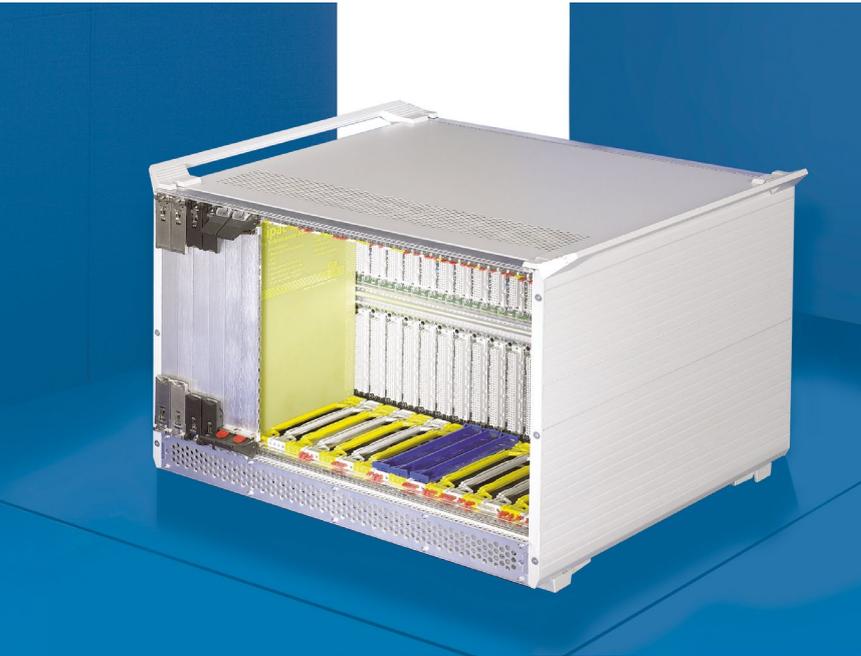

Upon request, the HeiBox ECO is also available as instrument case with individual spray finish.

INSTRUMENT CASES AND SYSTEM ENCLOSURES

HeiPac Vario-Module

Modern system enclosure for mobile and stationary applications

Applications

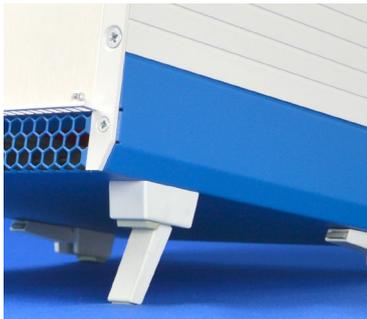

Optionally for use as an instrument case or rack-mount enclosure. Accommodates PCBs or plug-in units. For mobile and stationary applications.

Technical specifications

- 19" system enclosure, complies with IEC 60297-3
- Optionally for use as an instrument case or rack-mount enclosure
- Basic case optionally with bottom or top cover
- Height: 2 - 7 U
- Installation width: 42, 63, 84 HP
- Depth: 250 - 430 mm
- Variable depth interior installation
- Extruded aluminium section
- Protection category IP 40

Benefits at a glance

- Easy modification from instrument case to rack-mount enclosure
- Broad range of accessories
- Aesthetic design
- Basic case with variable expansions
- Optional EMC version

Customization and coloration possible

Interior fittings from the HeiPac Vario range

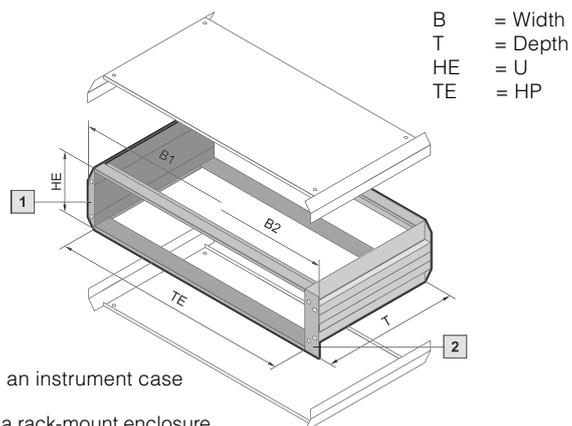

Flange for 19" installation

Front corner trims for assembly as instrument case

HeiPac Vario-Module 2 U

Technical specifications

Optionally for use as an instrument case or rack-mount enclosure.
 External dimensions to IEC 60297-3 for installation in enclosures, 482.6 mm (19").
 Installation dimensions for plug-in units according to IEC 60297-3-101.

Protection category

IP 40 for non-vented version.

Supply includes

- 2 side panels
- 4 horizontal rails
- 4 threaded inserts
- 2 corner trims for the rear of the enclosure
- 4 rubber feet
- Assembly parts

Material/surface finish

Side panels: Extruded aluminium section, spray-finished in grey (RAL 7035)
 Horizontal rail: Extruded aluminium section, clear-chromated
 Side trims: Extruded aluminium section, spray-finished in grey (RAL 7035)

Note

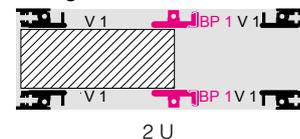

Corner trims, mounting flanges for the front of the enclosure and top/bottom covers have to be ordered separately.

Accessories

See page 47-51.

Horizontal rails for additional installations have to be ordered separately, see page 76

HeiPac Vario-Module 3 U

- 1** Equipped as an instrument case
- 2** Equipped as a rack-mount enclosure

Technical specifications

Optionally for use as an instrument case or rack-mount enclosure.
 External dimensions according to IEC 60297-3 for installation in enclosures, 482.6 mm (19").
 Installation dimensions for plug-in units according to IEC 60297-3-101.

Protection category

IP 40 for non-vented version.

Supply includes

- 2 side panels
- 4 horizontal rails
- 4 threaded inserts
- 2 corner trims for the rear of the enclosure
- 4 rubber feet
- Assembly parts

Material/Surface finish

Side panels: Extruded aluminium section, spray-finished in grey (RAL 7035)
 Horizontal rail: Extruded aluminium section, clear-chromated
 Corner trims: Extruded aluminium section, spray-finished in grey (RAL 7035)

Note

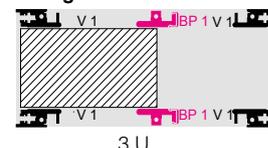

Corner trims, mounting flanges for the front of the enclosure and top/bottom covers have to be ordered separately.

Accessories

See page 47-51.

■ Horizontal rails for additional installations have to be ordered separately, see pages 76

INSTRUMENT CASES AND SYSTEM ENCLOSURES

HeiCase

Universal instrument case in a timeless design

Applications

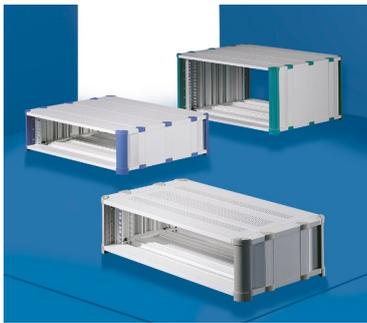

The HeiCase is the HEITEC instrument case of sophisticated design that is suitable for 19" rack-mount enclosure as well as individual configuration. In combination with castors and carrying handles the instrument case is particularly easy to transport.

Technical specifications

- Instrument case, complies with IEC 60297-3
- Height: 1 – 30 U
- Installation with: ½ 19" and 19"
- Depth: 300 – 900 mm
- Protection category IP 42
- Extruded aluminium section
- Variable depth/height interior installation

Benefits at a glance

- Outstanding mechanical stability
- Upgradeable to a tower version
- Standard in 3 colours
- Ergonomic handles, bottom- and door types
- Appropriate for mobile and stationary applications

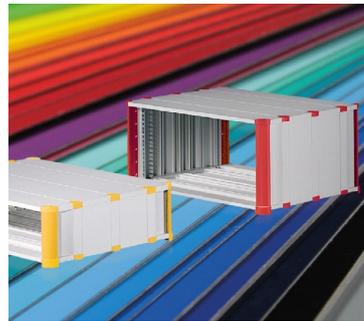

Flexible sizing through modular design

Wide range of accessories

Stable set up from aluminium profiles

Individual colouring available

High flexibility following customer requests

The modular line of standard casings can be manufactured to a height of up to 30 U and a depth of up to 900 mm.

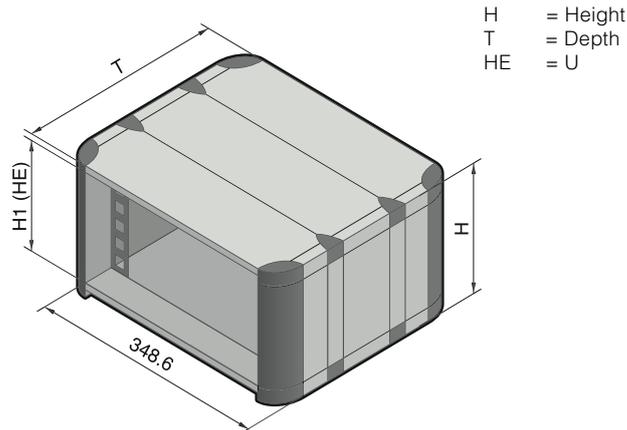

Those maxi-versions are suitable for applications of high packing density as well as a mobile alternative to cabinets. Thanks to their set up of individual, interconnected extruded aluminium sections even the large versions provide a high degree of stability and are scalable not only in height, but also in depth (up to 900 mm), modular in segments of 120 mm.

If needed, they can be mounted on rollers for mobile applications and equipped with specific handles, providing enhanced mobility. This ensures that the enclosure remains flexible in its application, even with its large dimensions.

The design of the enclosure can be customised to match the customer's corporate design. Decorative elements (corner trims and plastic parts) and even the system enclosure of the maxi versions can be designed in your desired RAL-colour if required.

Due to their solid structure the customised versions meet the requirements for robust instrument case and system enclosures with scalable interior and exterior installations. Through a variety of accessories they can be adapted to the respective requirements.

HeiCase 1/2 19"

Technical specifications

Depth: 300 mm, 420 mm, 540 mm
Installation options: 269.2 mm (1/2 19")-slide-in equipment to IEC60297-3

Protection category

IP 42 for unvented version

Supply includes

- 2 side panels
- 2 covers
- 8 corner caps
- 16 cover caps
- 4 feet
- 4 19" mounting brackets
- 4 threaded inserts
- 2 plain inserts
- 1 rear panel

Note

Cases are supplied preassembled.

Industrial-PC Chassis

Applications

The 4U IPC enclosure line in 19-inch was developed to meet the requirements for stability, security and flexibility in demanding industrial environments. The ATX enclosures offer the necessary protection for your valuable technology and impress with their design and functionality.

Technical Specifications

- 4U IPC chassis with 408 mm / 451 mm depth made of sheet steel
- Perfect fit for installation in 19-inch cabinets
- Card holder for fastening the expansion cards
- All variants are supplied fully assembled, pre-wired and tested
- Chassis comply with the EIA RS-310C 19-inch rackmount standard

Benefits at a glance

- Easy replacement of fans and filter mats during operation of IPC 402 & 404
- Efficient 'front-to-rear' cooling system
- Customised design according to customer requirements
- Wide range of accessories available
- Low and high quantities available at short notice

Removable fan cage of the IPC 404

Easily replaceable fans inside the IPC 402

IPC Chassis ATX 402

Robust, modern IPC-Chassis for 19-inch installations.

Technical specifications

- Two 90 x 90 mm integrated, replaceable fans
- Expansion slots integrated into the rear panel
- Card retainer for attaching expansion cards
- Alternatively available in RAL 7035 (grey) or a custom paint finish
- Front panel with integrated fan and filter mat
- On/off switch, HDD/POWER-LED's, 5 1/4-inch and 3.5-inch slots for drives
- Further I/O connection options
- Packs of one piece

Material

Heavy duty cold rolled and electroplated steel

Colour

Spray-finished, black

Note

EIA RS-310C 19-inch-Rackmount Standard Fully assembled, wired and tested

Height (H) U	W HP	Depth mm	Order No.
4	84	451	9926687

+ Also required

Power supply, see page 67 and 146

+ Accessories

Rear plates for IPC Chassis, see page 67
USB-Ports, see page 67

INSTRUMENT CASES AND SYSTEM ENCLOSURES

IPC CHASSIS 4 U

IPC Chassis ATX 404

Robust, modern IPC-Chassis for 19-inch installations.

Technical specifications

- Two 90 x 90 mm integrated, replaceable fans
- Expansion slots integrated into the rear panel
- Card retainer for attaching expansion cards
- With integrated Front-USB 2.0
- Alternatively available in RAL 7035 (grey) or a custom paint finish
- Front panel with integrated fan and filter mat
- On/off switch, HDD/POWER-LED's, 5 1/4-inch and 3.5-inch slots for drives
- Further I/O connection options
- Packs of one piece

INSTRUMENT CASES AND SYSTEM ENCLOSURES

SYSTEM PLATFORMS

HeiPac Vario-Module VPX

19-inch VPX-system platform for 3 U plug-in units

Technical specifications

- 4 U case with 3 U card cage
- Codable VPX guide rails
- 6 slot VPX Backplane
- Powerful heat dissipation through radial fans
- Compliant with ANSI/VITA 46.0, 46.10, 48.0, 48.1, 65-2010 and 62.0
- Horizontal rails for maximum load
- Conforms to IEC 60297 and IEEE 1101.1

Material

Side Panels and horizontal rails: Extruded aluminium section
Top- and bottom covers: Painted sheet steel

Colour

Painted grey (RAL 7035)

Note

This product is customisable due to its modular components:
Can be used with various backplanes (number of slots, system slot, etc.)
EMC version possible
Enclosure can be individually painted

Height (H) U	W HP	Side Panel Depth (mm)	Version	Order No.
4 (3+2x1/2)	42	250	Table top	9919933

Supply includes

Includes ATX Power supply 100 – 240 VAC with 204 W at 12 V
Two radial fans integrated into the top cover
Completely assembled, prewired and tested

HeiPac Vario VPX

19-inch VPX-system platform for 3 or 6 U plug-in units

Technical specifications

- Monolithic VPX backplane
- Up to 6/12 boards with 3U / 6U and 1.0 inch pitch
- 9U version prepared for 80 mm rear I/O cards
- Compliant with ANSI/VITA 46.0, 46.10, 48.0, 48.1, 65-2010 and 62.0

Material

Aluminium

Surface finish

Colourless, passivated

Note

This product is customisable due to its modular components:
Different backplanes can be used (amount of slots, system slot, ...)
EMC version possible
Picture shows 9U version

Height (H) U	W HP	Side Panel Depth (mm)	Version	Order No.
4 (3+1)	42	250	rack-mount	9919932
9 (6+1+2)	84	250.4	rack-mount	9924733

Supply includes

Includes power supply with 250 Watt at 100 – 240 VAC (4 U) or 600 Watt at 85 – 264 VAC (9 U)
1 axial fan (4 U) or 3 axial fans (9 U) integrated into the bottom cover
Completely assembled, prewired and tested

HeiPac Vario-A CPCI-S

5 Slot CompactPCI® SERIAL platform for 3 U plug-in units

Technical specifications

- 4 U subrack with 3 U card cage
- Codable card guides
- 5-slot CompactPCI® serial backplane as per PICMG CPCI-S.0 R2.0
- Ethernet in Single Star topology
- 2 Fat Pipes PCI Express
- CompactPCI® serial system slot on the right
- Scalable: project-related up to 8 slot CompactPCI® serial or hybrid backplane can be integrated
- Scalable: project-specific power supply, solutions with up to 2 plug-in redundant CompactPCI® serial power supplies possible
- Corresponds to IEC 60297 and IEEE 1101.1

Material

Aluminium

Surface finish

Chromated

Note

This product is customisable due to its modular components:
Different backplanes can be used (amount of slots, system slot, ...)
EMC version possible

Height (H) U	W HP	Side Panel Depth (mm)	Version	Order No.
4 (3+1)	42	250	Rack-mount	9919911

Supply includes

Includes ATX Power supply 100 – 240 VAC with 204 W at 12 V
2 axial fans integrated into the bottom cover
Completely assembled, prewired and tested

HeiPac VM-R CPCI-S

5 Slot CompactPCI® SERIAL platform for 3 U plug-in units

Technical specifications

- 4 U subrack with 3 U card cage
- Codable card guides
- 5-slot CompactPCI® serial backplane as per PICMG CPCI-S.0 R2.0
- Ethernet in Single Star topology
- 2 Fat Pipes PCI Express
- CompactPCI® serial system slot on the right
- Scalable: project-related up to 8 slot CompactPCI® serial or hybrid backplane can be integrated
- Scalable: project-specific power supply, solutions with up to 2 plug-in redundant CompactPCI® serial power supplies possible
- Corresponds to IEC 60297 and IEEE 1101.1

Material

Side Panels and horizontal rails: Extruded aluminium section
Top- and bottom covers: Painted sheet steel

Colour

Painted grey (RAL 7035)

Note

This product is customisable due to its modular components:
Different backplanes can be used (amount of slots, systemslot, ...)
EMC version possible
Case in different colours

Height (H) U	W HP	Side Panel Depth (mm)	Version	Order No.
4 (3+2x1/2)	42	250	Table top	9919912

Supply includes

Includes ATX Power supply 100 – 240 VAC with 204 W at 12 V
2 radial fans integrated into the top cover
Completely assembled, prewired and tested

HEITEC Components and Accessories

High performance in every detail

COMPONENTS
AND ACCESSORIES

Besides complete subrack and system solutions HEITEC offers a wide range of individual components and accessories for setup, mounting and upgrade.

Our inside and outside sales staff will gladly help you to find the right selection of components and support you in compiling the optimum package to fulfil your individual preferences and requirements.

COMPONENTS AND ACCESSORIES

HORIZONTAL RAILS HeiPac Vario

Horizontal rail Vario V 1, front

To accommodate guide rails and for the attachment of front panels.

- Front projection 2.5 mm corresponding to IEC 60297-3-101
- HP pitch pattern of holes for the precise installation of guide rails
- M4 thread on end face
- Straight-through core hole

Material

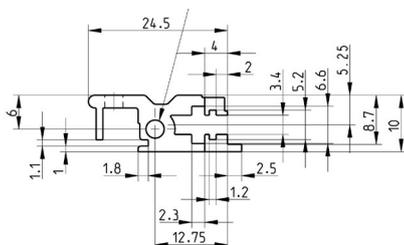

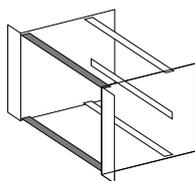

Extruded aluminium section

Surface finish

Clear-chromated

Note

Horizontal rail 192 HP, anodised without end face machining. Suitable for individual cutting to length. Also available in many intermediate sizes from 4 HP to 192 HP available on request.

Threaded inserts, see page 94
Identification strips, see page 95
Gaskets, see page 93

Horizontal rail Vario V 2, front, with double screw fastening

To accommodate guide rails and for the attachment of front panels. The double screw fastening ensures a high level of stability even under extreme loads.

- Front projection 2.5 mm corresponding to IEC 60297-3-101
- HP pitch pattern of holes for the precise installation of guide rails
- M4 thread on end face
- Straight-through core hole
- Load test to DIN EN/IEC 61 587-1, requirement level SL1
- Shock and vibration tests undertaken as per IEC 61 373 (DIN EN 50 155), Category 1, Class B

Material

Gaskets, see page 93

Horizontal rail Vario V-Ext. 1, front, with 10 mm extension

For type IV, IVs and VII injector/extractor handle

To accommodate guide rails and for the attachment of front panels.

- Front projection 10 mm corresponding to IEEE 1101.10 and IEC 60297-3-102
- HP pitch pattern of holes for the precise installation of guide rails
- M4 thread on end face
- Straight-through core hole

Material

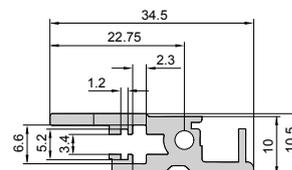

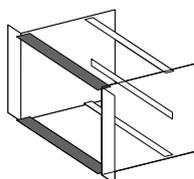

Extruded aluminium section

Surface finish

Clear-chromated

Note

Not compatible with Vario-Module support stand/carrying handle.
Horizontal rail 192 HP, anodised without end face machining. Suitable for individual cutting to length.
Also available in many intermediate sizes from 4 HP to 192 HP available on request.

Gaskets, see page 93

COMPONENTS AND ACCESSORIES

HORIZONTAL RAILS HeiPac Vario

Horizontal rail Vario V-Ext. 2, with 10 mm extension and double screw fastening, front

For type IV, IVs and VII injector/extractor handle

To accommodate guide rails and for the attachment of front panels. Double screw fastening and an extra high profile section ensure unique stability evens under extreme loads.

- Front projection 10 mm corresponding to IEEE 1101.10 and IEC 60297-3-102
- HP pitch pattern of holes for the precise installation of guide rails
- M4 thread on end face
- Straight-through core hole

¹⁾ Assembly screws, packs of 100, order no. 3654360, see page 148

Guide rails 2HP for EMC spring installation, plastic

For 160, 220 and 280 mm PCBs up to 2 mm nominal thickness. By installing contact springs, an electrical connection can be made between the PCB and the assembly.

Material

Polycarbonate
Base material to UL 94-V0

For PCB depth mm	Packs of	Order No.
160	10	3688053
220	10	3688054
280	10	3688056

+ Also required

Contact springs, order no. 3687726, see page 104

ESD contacts for 2 HP guide rails

For electrical connection between the PCB and the subrack, or to discharge static charges from the PCB.

Material

Copper-tin alloy

Note

Suitable for 2 HP guide rails, see page 96

Packs of	Order No.
10	3687726
100	9901424

Guide rails, Aluminium

1

2

For high loads. Suitable for nominal PCB thicknesses of 1.6 mm. A distinction is made between guide rails for and without end pieces. The guide rails without end pieces are screwed directly into the horizontal rail.

Material

Aluminium

For PCB depth mm	Packs of	Order No.	
		1 Without end piece ¹⁾	2 For end pieces

¹⁾ Screw M2.5 x 6, packs of 100, order no. 3654340, see page 148

¹⁾ Nut M2.5, packs of 100, order no. 3654370, see page 148

¹⁾ Retaining cage M2.5, packs of 100, order no. 9901417, see page 148

End pieces for aluminium guide rails, plastic

Mounting contact springs ensures an electrical connection between the PCB and the subrack.

Material

Polycarbonate
Base material UL 94-V1

Supply includes

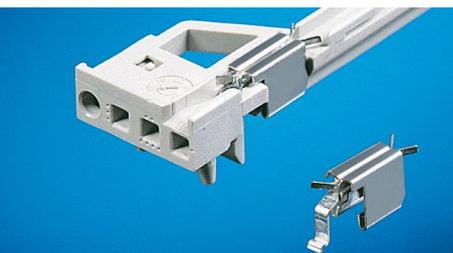

End piece, front
End piece, rear

Version	Packs of	Order No.
End piece, front + rear	10	3688028

+ Also required

Contact springs, order no. 3687726, see page 104

Keyable guide rails 4 HP, plastic

Guide rails 4 HP, keyable, to IEEE 1101.10.

- For 1.6 – 2.4 mm nominal thickness
- Chambers for the installation of keys
- Option of installing ESD contacts to discharge static charges
- Narrow design for maximum air flow
- Various colour variants to identify the slots:
 - Red for system slot
 - Green for power supply
 - Yellow and grey for board-type plug-in units

- 1** ESD contact for guide rails
- 2** ESD contact for front panel
- 3** Keys

Material

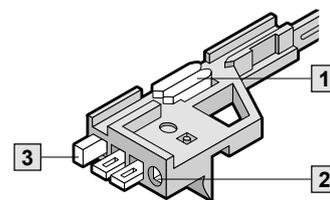

Polycarbonate
Base material to UL 94-V0

Colour

Grey (RAL 7035)
Red (RAL 3000)
Green
Yellow

Note

Only for use in conjunction with type IV, IVs, VII injector/extractor handles.

For PCB depth mm	Packs of	Order No.

Other customised solutions regarding colouring are available upon request. Please get in contact with one of our sales representatives for further assistance by phone or by mail at [Tel. +49 9126 - 29 34 0](tel:+49912629340) or electronics-quote@heitec.de.

+ Accessories

Keys, see page 109
ESD contact, see page 109
Extractor handles type IV, IVs, VII, see page 118 et seq.

COMPONENTS AND ACCESSORIES

GUIDE RAILS

Keyable guide rails with 1/2 HP offset

Guide rails with 1/2 HP offset for use in telecom applications. This allows PCBs to be populated on both sides. Green guide rails with offset are prescribed in the CompactPCI specification (PICMG 2.11) for the installation of power supply units.

- For 1.6 – 2.0 mm PCB thickness
- 4 HP width for 160/220 mm PCB
- Narrow design for maximum air flow
- Chambers for the installation of keys
- Option of installing ESD contacts to discharge static charges

Material

Polycarbonate
Base material to UL 94-V0

Note

Only suitable for use in conjunction with extractor handles type IV, IVs, VII with 1/2 HP offset.

For PCB depth mm	Packs of	Colour	Order No.
160	10	Grey	3688062
	1	Yellow	3689090
	1	Green	3687832
220	10	Grey	3688060
	1	Yellow	3689092

+ Accessories

Keys, see page 109
ESD contact, see page 109
Extractor handles Type IVs, VII with 1/2 HP offset, see page 119

Keyable guide rails for rear I/O assemblies

Guide rails 4 HP, keyable to IEEE 1101.10. Prepared to accommodate a ground contact for assembly of a plug-type connection.

- For 1.6 – 2.0 mm nominal thickness
- For 80 mm deep PCBs
- Chambers for the installation of keys
- Option of installing ESD contacts to discharge static charges
- Narrow design for maximum air flow
- For CPCI or VME applications

Material

Polycarbonate
Base material to UL 94-V0

Note

Only for use in conjunction with type IV, IVs, VII injector/extractor handles.
Not suitable for horizontal rails with double screw-fastening.

Colour	For PCB depth mm	Packs of	Order No.	
			Guide rails Top	Bottom
Grey	80	1	3687936	3687937
Yellow	80	1	3689097	3689098

+ Accessories

Keys, see page 109
ESD contact, see page 109
Extractor handles type IV, IVs, VII, see page 118 et seq.

Ground contact

Ensures a plug-in ground connection. UL-approved.

Material

Die-cast zinc

Supply includes

Grounding bush and contact spring

Note

Only suitable for use in conjunction with keyable guide rails for I/O assemblies.

Version	Order No.	
Grounding bush and contact spring	1 set	50 sets
	3689036	3687951

+ Also required

Assembly screws 3.5 x 12 mm, packs of 50, order no. 3684109, see page 148

Keyable guide rails, aluminium, three-part

Keyable guide rails with aluminium centre part, for high mechanical loads. Suitable for 1.6 – 2.0 mm PCB thickness.

The guide rails are compiled from the following individual components:

- 1 2 end pieces
- 2 1 aluminium centre part
- 3 Insulating centre part(s)

1 End pieces

For three-part guide rails

For 1.6 – 2.0 mm PCB thickness

Material

Polycarbonate
Base material to UL 94-V0

Note

A front and a rear end piece is required for each guide rail.

Version	Packs of	Order No.
Front + rear end piece	10 pairs	3685265

2 Aluminium centre part

For three-part guide rails

For 1.6 – 2.0 mm PCB thickness

Material

Aluminium, unplated

For PCB depth mm	Order No.	
	Packs of 1	Packs of 10
220	-	3685260

COMPONENTS AND ACCESSORIES

GUIDE RAILS

Guide rails for 4.4" drive modules

Snap-fastening guide rails to accommodate PCBs and assemblies with a height of 4.4" (111.76 mm). The guide rails can be screwed and also be used in combination with heavy load rails.

Material

Polycarbonate
Base material to UL 94-V0

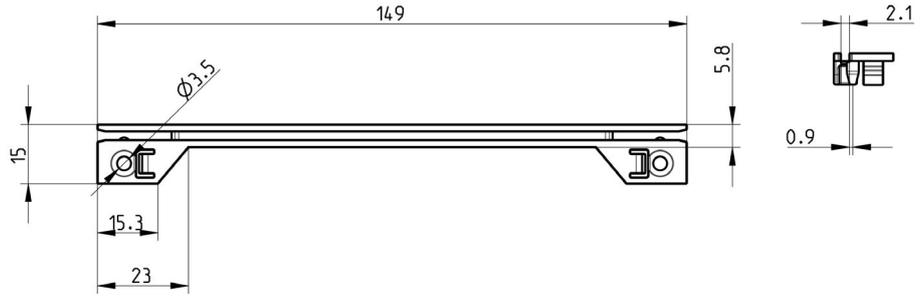

Colour

Grey (RAL 7032)

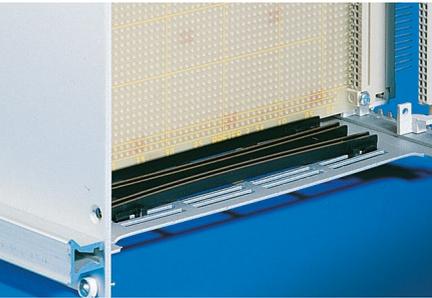

For PCB depth mm	Packs of	Order No.
160	1	9919834

+ Accessories

Countersunk screw Torx® 3.5 x 8 mm, order no. 9920080

Guide rails for box type plug-in units

For PCB thickness 1.6 mm. For insertion into covers with vent slots (from 12 HP), see page 134.

Material

Noryl™

Note

PCB holder for box-type plug-in units see page 125.

For PCB depth mm	Packs of	Order No.
160	10	3606140
220	10	3606200

Air block panel for slots

To conceal unused slots and prevent unwanted airflow. The air block panel simply snaps into position on the guide rails.

Material

Polycarbonate, self-extinguishing to UL 94-V0

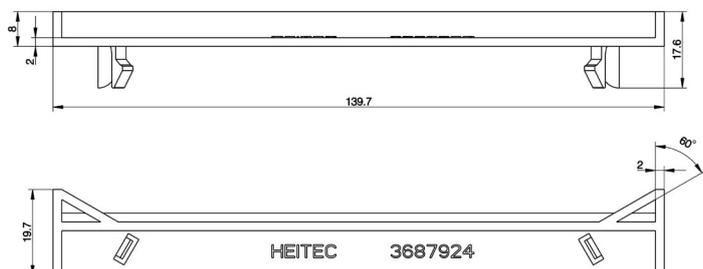

Colour

Blue

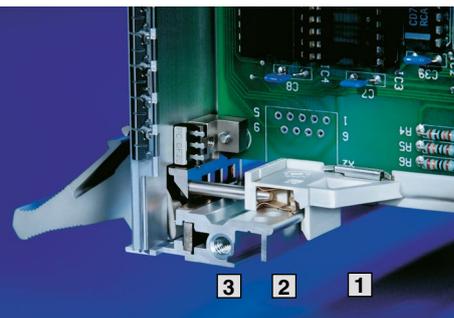

Note

Can only be used in conjunction with keyable guide rails 4 HP/160 mm. Not suitable for use in conjunction with guide rails with 1/2 HP offset.

For keyable guide rail mm	Packs of	Order No.
160	1	3687924

ESD contacts for 4 HP guide rails

For installation in keyable guide rails.
To discharge static charges.

- 1 ESD contact in the guide rail**
For permanent direct discharge from the PCB.
- 2 ESD contact for front panel**
To discharge static charges in conjunction with the ESD pin.
For insertion into the end piece of the guide rail.

3 ESD pin

4 Keys

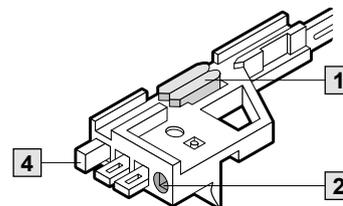

Material

- 1** Stainless steel
- 2** Tin bronze, tin-plated

Note

Only for use in conjunction with extractor handle with ESD pin (type IV, IVs, VII), see page 118 et seq.

ESD clip for	Packs of	Order No.
Guide rail	50	3684204
Front panel	50	3684205

Keys

Keys are used for coding of board-type plug-in units and prevent the use of assemblies in incorrect slots. The keys are inserted into the chambers of the keyable guide rails and the injector/extractor handles, types IV, IVs and VII (4 positions are possible). This produces 64 keying combinations per guide rail.
When keying the top and bottom guide rail, 4096 potential combinations are possible.

Colour	Packs of	Order No.
Grey	100	3684325
Red	100	3684326

+ Accessories

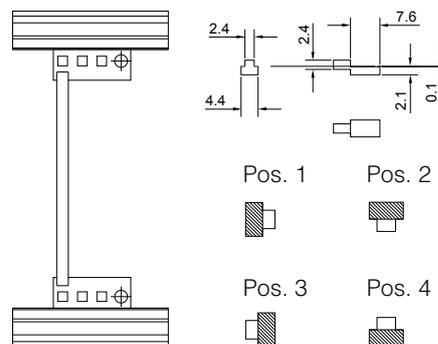

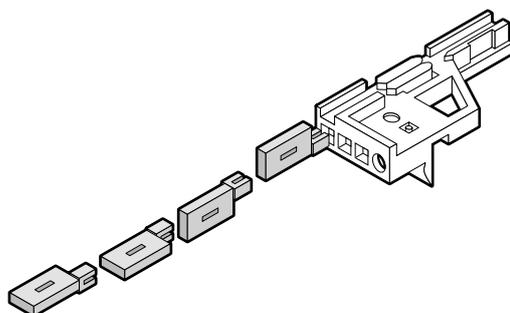

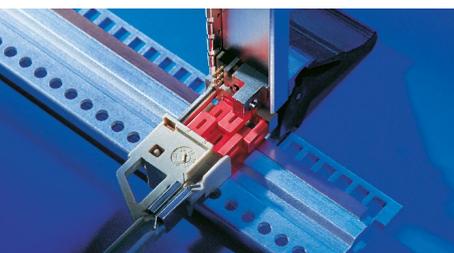

Keying tool, see page 110

Standards

IEEE 1101.10, IEC 60297-5-104

Material

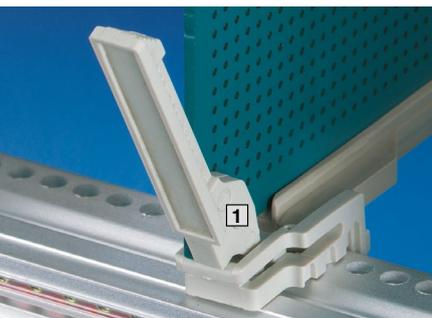

Plastic, PBTP
Base material to UL 94-V0

COMPONENTS AND ACCESSORIES

ACCESSORIES FOR KEYABLE GUIDE RAILS

PCB ejector/retainer

The two-piece PCB ejector is used for securing and extracting PCBs without front panels. The base section may also be used separately for board retention only.

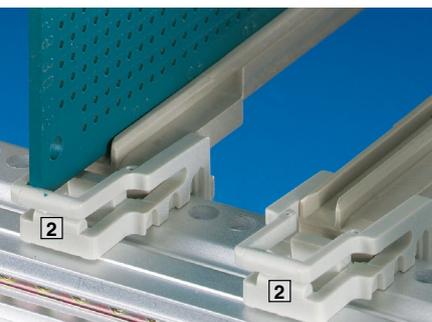

Material

Polycarbonate
Base material to UL 94-V0

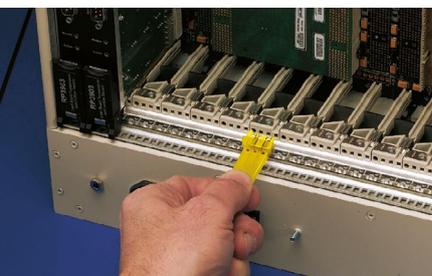

Note

Only suitable for guide rails 2 HP.

Version	Packs of	Order No.
1 PCB ejector/retainer	10	3687014
2 PCB retainer	10	3687052

Keying tool

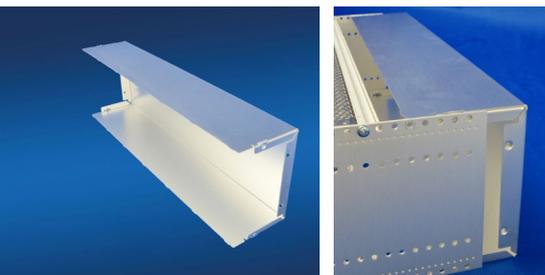

For simple assembly of keys. Up to 3 coding keys may be fitted simultaneously. An integral alignment pin makes positioning easier.

Material

Polycarbonate
Base material to UL 94-V0

Packs of	Order No.
1	3687956

Back cover

For HeiPac Vario, EMC and Heavy

Ensures cover for back of subrack.

Material

Aluminium

Surface finish

Clear-chromated

Supply includes

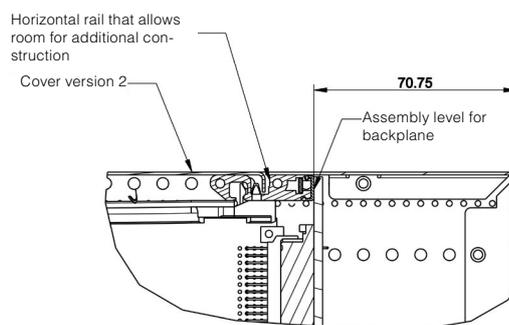

Assembly Parts

Note

The side panel depth required is obtained by taking the length of the plug-in units used and adding 85 mm (refer to table). A precondition is the use of a horizontal rail that allows room for additional construction.

U	Packs of	Order No.
3	1	9921685
6	1	9921710

PCB depth mm	Side panel depth mm
160	245
220	305
280	365

Covers version 1

For subracks HeiPac Vario, Vario EMC, COMPACT and HEAVY

To cover the overall-subrack depth (EMC application) or as connector protection.

- Flat design for top and bottom
- Optionally solid or perforated
- For mounting on the subrack side panel with the aid of mounting blocks

Material

1.0 mm aluminium degreased, hole diameter 4 mm in perforated version.
1.0 mm aluminium, matt, pickled, chromated, for closed version.

Each set includes

2 cover plates
8 mounting blocks 28.5 mm
25 assembly screws

Individual unit includes

1 cover plate

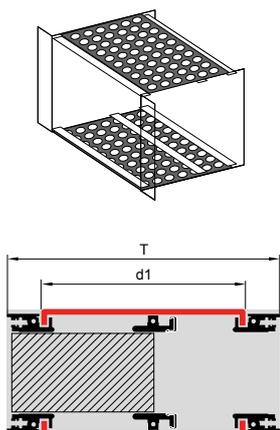

Note

For EMC applications, additional mounting blocks must be fitted across the entire subrack depth. Not suitable for HeiPac EASY and ECO, see page 114.

Covers version 5

For subracks HeiPac Vario, Vario EMC, ECO, COMPACT and HEAVY

To cover the overall subrack depth or PCB depth. (EMC application)

Simple assembly:

- Side edge fold with half shears enables fast assembly (without mounting blocks) by simply snap-fastening
- Side notches for fitting horizontal rails in 160, 220 or 280 mm depth
- Optionally solid or perforated

Material

1.0 mm aluminium degreased, hole diameter 4 mm in perforated version.

1.0 mm aluminium, matt, pickled, chromated, for closed version.

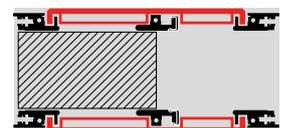

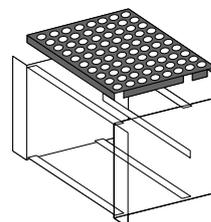

Supply includes

2 gaskets

Note

Not suitable for HeiPac EASY, see page 114.

Covers for HeiPac EASY

For subracks HeiPac EASY

- Perforated or solid
- Optionally with screwed fastening clips on the side panels for additional support

Material
0.8 mm aluminium

Supply includes
2 cover plates

Cover plates

Version 1 (slide-in)

The covers are simply slid into the front and rear horizontal rails for mounting backplanes/connectors.

Version 2 (slide-in/screw-in)

For mounting additional rear horizontal rails on the rear panels. The horizontal rails for backplane/connector assembly are top-mounted. The covers are slid in the front horizontal rails and screwed in the rear horizontal rails for rear panel mounting.

Extractor handles

Type I

Type II

COMPONENTS AND ACCESSORIES

FRONT PANELS AND HANDLES

EMC U-channel front panels with injector/extractor handle

Complete kit for self-assembly with EMC parts with type I, II extractor handle or type IV injector/extractor handle

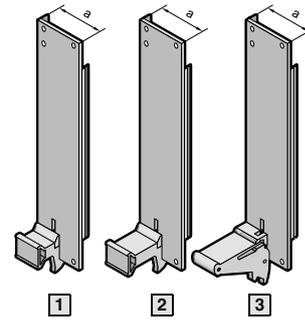

Material

Partial front panel: extruded aluminium, section, clear-chromated
Handle: plastic, black

Supply includes

- 1 front panel
- 2 handles (1 with 3 U)
- 1 EMC gasket, vertical, version 1
- 1 set of assembly parts
- 1 PCB holder (for 3 U)

Detailed drawing
see page 118 et seq.

COMPONENTS AND ACCESSORIES

FRONT PANELS AND HANDLES

Extractor handle type I and type II

- Suitable for flat front panels/U-channel front panels.
- With removal function.
- May be used in combination with horizontal rails with 10 mm extension.

Supply includes

Assembly parts

Note

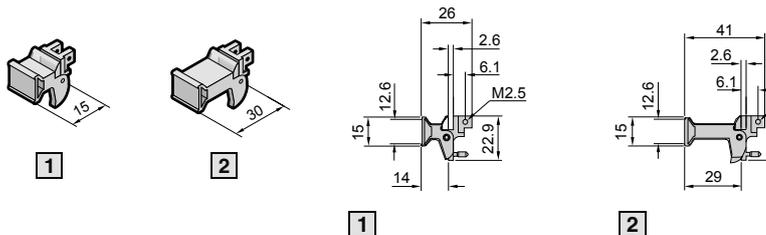

With 3 U, only one extractor handle is required.

1 Type I extractor handle, 15 mm

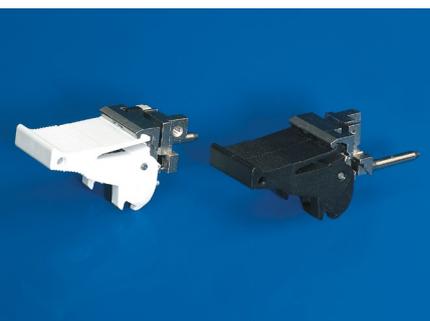

Colour	Packs of	Order No.
Grey	1	3685587
Black	1	3685589

2 Type II extractor handle, 30 mm

Colour	Packs of	Order No.
Grey	1	3685588
Black	1	3685590

Injector/extractor handle type IV

For inserting and removing connectors with a large number of pins.

Handles with micro-switch

- Insertion/removal function
- Integral microswitch for "live insertion" applications
- Self-activation of the micro-switch during insertion/removal
- ESD pin to dissipate static charges before contacting the connectors and for precise positioning of the board type plug-in unit
- Keyable
- Integral PCB attachment
- Self-locking
- Bayable

Handle without micro-switch

Description see above.
Micro-switch may be retrofitted.

Supply includes

1 handle with or without micro-switch,
Assembly parts

Note

Insertion only when used with front horizontal rails, with 10 mm extension see page 79 et seq.
With 3 U front panels, only one extractor handle is required.

Handles with micro-switch

Colour	Installation	Packs of	Order No.
Grey	Top	1	3686905
Grey	Bottom	1	3686904
Black	Top	1	3686907

+ Accessories

Keys, see page 109
Keyable guide rails, see page 106
Micro-switches, see page 121
Connector pin for buying, see page 120

Injector/extractor handle type IV, 8 HP bayed

For two front panels 4 HP
Connects two front panels mechanically.

Supply includes

2 bayed handles
Fully assembled

Colour	Installation	Packs of	Order No.
Black	Bottom	1	3686908
Black	Top	1	3686909

+ Accessories

Connector pin for baying, see page 120

Injector/extractor handle type IVs

For inserting and removing connectors with a large number of pins. A metal insert ensures reliable functioning, even at forces of up to 815 N.

With push-button

- Insertion/removal function
- Push-button for locking and unlocking the board type plug-in unit (cannot be extracted in the locked position)
- Optionally with 1/2 HP offset PCB attachment, e. g. for component mounting on both sides
- Optional integral micro-switch for "live insertion" applications
- ESD pin to dissipate static charges before contacting the connectors and for precise positioning of the board type plug-in unit
- According to IEEE 1101.1
- Keyable
- Integral PCB attachment
- Bayable

Material

Plastic/metal

Supply includes

Assembly parts

Note

Insertion only when used with front horizontal rails, with 10 mm extension see page 79 et seq.
With 3 U front panels, only one extractor handle is required.

Handles without offset

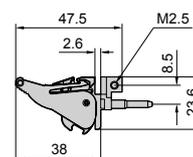

Installation	Packs of	Order No.
Top	1	3688770
Bottom	1	3688771

Handles with 1/2 HP offset

Installation	Packs of	Order No.
Top	1	3688772
Bottom	1	3688773

+ Accessories

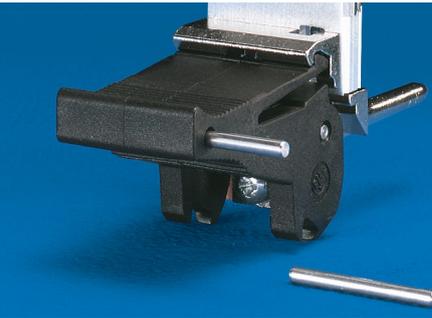

Keys, see page 109
Keyable guide rails with 1/2 HP offset, see page 106
Micro-switches, see page 121
Connector pin for baying, see page 120

COMPONENTS AND ACCESSORIES

FRONT PANELS AND HANDLES

Connection pin for injector/extractor handles

For injector/extractor handles, types IV, IVs and VII

The connection pin can be used to connect injector/extractor handles, types IV, IVs and VII.

Material

Steel

Packs of	Order No.
20	3685319

Injector/extractor handle type VII

For inserting and removing connectors with a large number of pins. This handle is specifically designed for use in telecom applications.

Plastic

- Insertion/removal function
- Optionally with 1/2 HP offset PCB attachment, e. g. for component mounting on both sides
- Minimum front space requirements, due to foldup handle
- Optional integral micro-switch for "live insertion" applications
- ESD pin dissipates static charges before the connectors make contact and ensures precise positioning of the board-type plug-in unit
- Keyable
- Large labelling area on the front

Material

Plastic/metal

Supply includes

Assembly parts

Note

Insertion only when used with front horizontal rails, with 10 mm extension see page 79 et seq.

Handles without offset

Installation	Packs of	Order No.
Top	1	3688784
Bottom	1	3688785

Handles with 1/2 HP offset

Installation	Packs of	Order No.
Top	1	3688780
Bottom	1	3688781

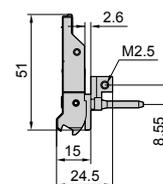

+ Accessories

Keys, see page 109

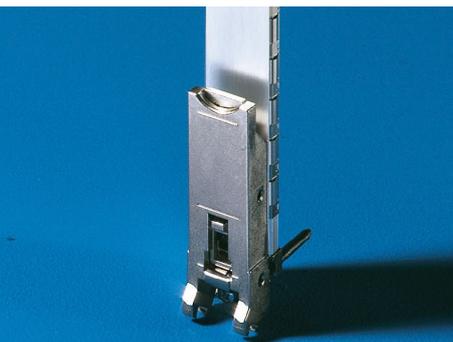

Keyable guide rails with 1/2 HP offset, see page 106

Micro-switches, see page 121

Connector pin for buying, see page 120

Injector/extractor handle type VII

For inserting and removing PCBs with a high connector pin-count (up to 815 N). This handle was specifically designed for use in telecom applications.

Metal

- Insertion/removal function
- Optionally with 1/2 HP offset PCB attachment, e. g. for component mounting on both sides
- Minimum front space requirements due to foldup handle
- Optional integral micro-switch for "live insertion" applications
- ESD pin dissipates static charges before the connectors make contact and ensures precise positioning of the board-type plug-in unit
- Keyable
- Metal design for use in aggressive atmospheres

Material

Die-cast zinc

Supply includes

Assembly parts

Note

Insertion only when used with front horizontal rails, with 10 mm extension see page 79 et seq.

Handles without off set

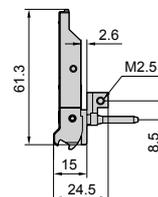

Installation	Packs of	Order No.
Top	1	3688790
Bottom	1	3688791

Handles with 1/2 HP offs et

Installation	Packs of	Order No.
Top	1	3688786
Bottom	1	3688787

+ Accessories

Keys, see page 109
Keyable guide rails with 1/2 HP offset, see page 106
Micro-switches, see page 121
Connector pin for baying, see page 120

Micro-switch

Installation in injector/extractor handles, types IV, IVs and VII

For "live insertion" applications, may also be retrofitted.

Technical specifications

Switching load: 50 mA 30 V DC

Service life:
At nominal load: 30,000
Mechanical: 50,000

Packs of	Order No.
10	3684410

+ Accessories

Micro-switch mounting clip, see page 122

Micro-switch, with cable

Installation in injector/extractor handles, types IV, IVs and VII

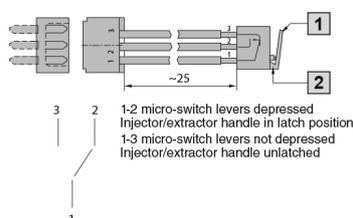

With cable and connector

For "live insertion" applications.

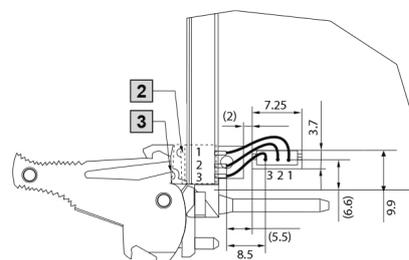

Supply includes

Micro-switch, connector type Molex 51021-0300,
Mounting clips,
3 cables 25 mm x AWG32,
Fully assembled

Packs of	Order No.
1 set	3684536

- 1 Lever not depressed
- 2 Lever hinge
- 3 Lever contact point

COMPONENTS AND ACCESSORIES

FRONT PANELS AND HANDLES

Micro-switch mounting clip

For mounting micro-switches in handles.

Material

Plastic, UL94-V0

Packs of

10

Order No.

3684411

+ Also required

Micro-switch see page 121

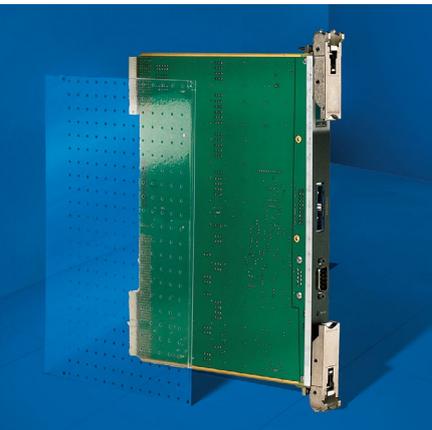

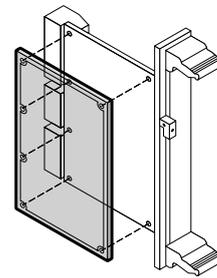

Plastic covers for PCBs

For mechanical protection of the component side and of the EMC gaskets. Attachment holes as per CPCI or VME-specifications. Optionally available as perforated or solid version.

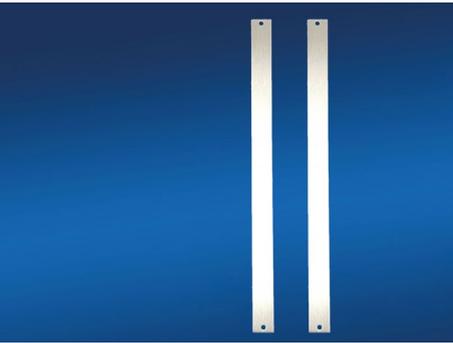

Material

0.5 mm plastic, transparent, anti-static UL 94-V0, maximum temperature up to 65°C

U-channel front panels as filler panels

U-Shaped partial front panels to cover unused slots in cases.
EMC material is included.

Material

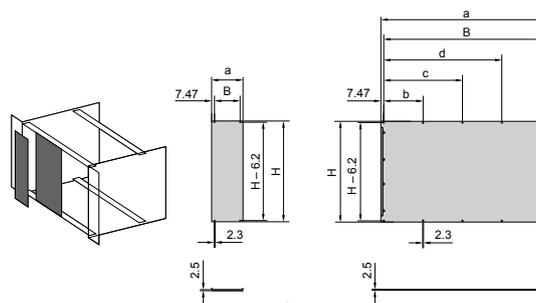

2.5 mm extruded aluminium section, clear-chromated

Supply includes

- 1 front panel, one-piece (with 2 - 14 HP version) or three-piece (with > 14 HP version)
- 1 vertical EMC gasket, version 1
- 1 contact strip (three-piece only)
- 1 gasket strip (three-piece only)
- Assembly parts

Note

Also available in many intermediate sizes from 1 - 9 U and 2 - 84 HP on request.

+ Accessories

Slotted centring screws, packs of 100, order no. 3687050 see page 149
Cross-head centring screws, packs of 100, order no. 3687051, see page 149

½ 19"	2	3634060
19"	2	3634070

Mezzanine front panels

For PCI mezzanine cards (PMC), conforms to IEEE 1386.

Material/surface finish

Extruded aluminium section, clear-chromated

Packs of	Order No.
1	3688658

+ Accessories

EMC seals, see page 131
 Assembly screws M2.5 x 6, packs of 100, order no. 3654340, see page 148

Support spacers for mezzanine cards

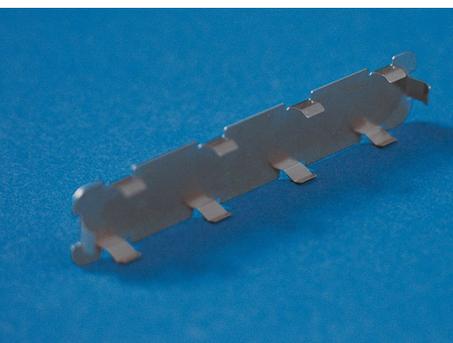

Support spacer 10 mm, for mounting mezzanine cards.

Material

Steel, nickel plated

Packs of	Order No.
1	3688663

Covers for mezzanine cut-outs

To conceal unused mezzanine cut-outs. The covers are simply clipped into the cut-outs.

Material

Stainless steel

Packs of	Order No.
1	3688660

EMC seals for mezzanine front panels

For inserting into the all-round channel of the mezzanine front panels.

Material/surface finish

Sealing ring made of conductive carbon filled silicon sealing gasket made from stainless steel

Design	Packs of	Order No.
Sealing ring	1	3688661
Sealing gasket	1	3688662

COMPONENTS AND ACCESSORIES

BOX-TYPE PLUG-IN UNITS

HeiPac box-type plug-in units – type I

Technical specifications

Installation depth: 160 and 220 mm
 Height: 3 U and 6 U to IEC 60297-3
 Rear panel to accommodate single connectors

Material

Front panel: 2.5 mm aluminium, pure anodised
 Rear panel: 2 mm aluminium, untreated
 Side panel profile: extruded aluminium profile, pure anodised
 Handle: aluminium, pure anodised
 PCB holder: plastic

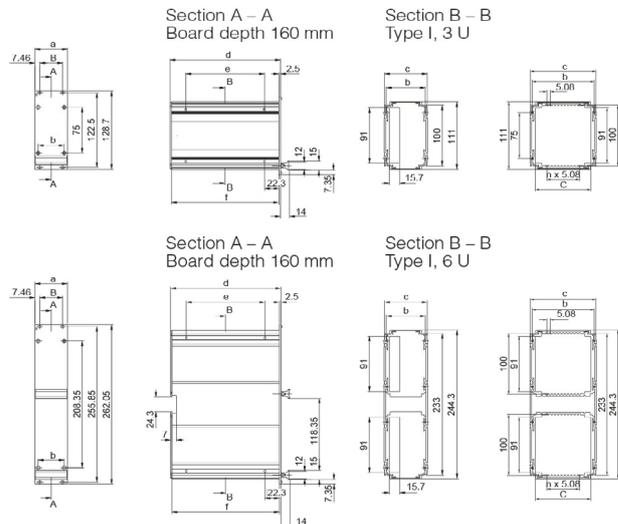

Available on request

- Box-type plug-in units in special sizes or printed
- EMC box-type plug-in units with EMC front panels

PCB holder for box-type plug-in units

For fastening PCBs in box-type plug-in units.

Material

Plastic PBTP, basic material to UL 94-V0

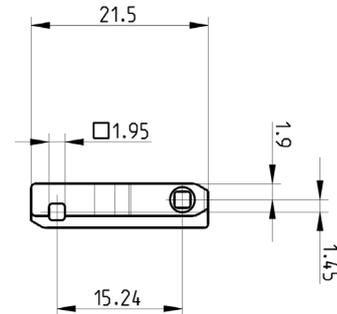

Supply includes

Assembly parts

Note

PCB holder for box-type plug-in units see page 100.

Packs of	Order No.
2	3606321

Guide rails for drive chassis

For guiding drive chassis in the subrack.

Material

Aluminium

Supply includes

Press-fit pin

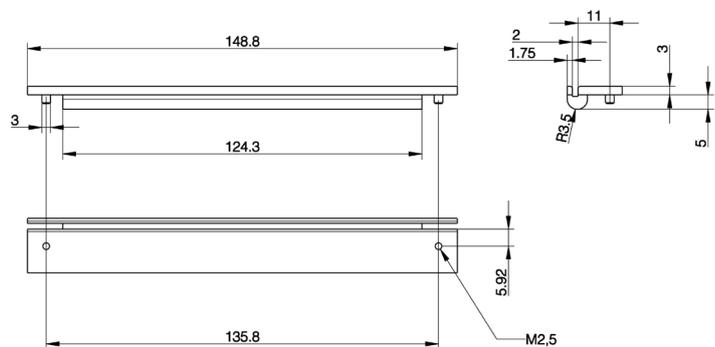

Note

Two guide rails are required for each drive chassis.
Guide rails 4.4" for plastic drives, see page 108.

For installation depth mm	Packs of	Order No.

COMPONENTS AND ACCESSORIES

CLIMATE CONTROL

Vertical cooling from bottom to top

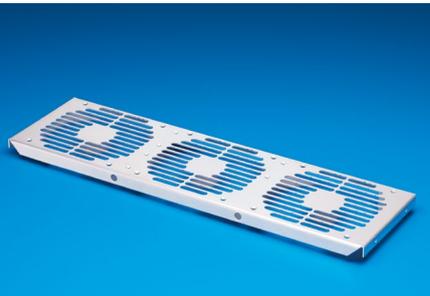

Air flow via normal convection or forced cooling devices in the enclosure or housing outside of the subrack.

Vertical forced air flow, supported by fans installed at the bottom of the subrack (1 U).

+ Accessories

AC/DC fan see page 140 f.
Fan mounting plate see below

Fan mounting plate

For the installation of 120 mm fans and filter modules in 4 U and 7 U subracks.
For mounting on the subrack side panels.

Material

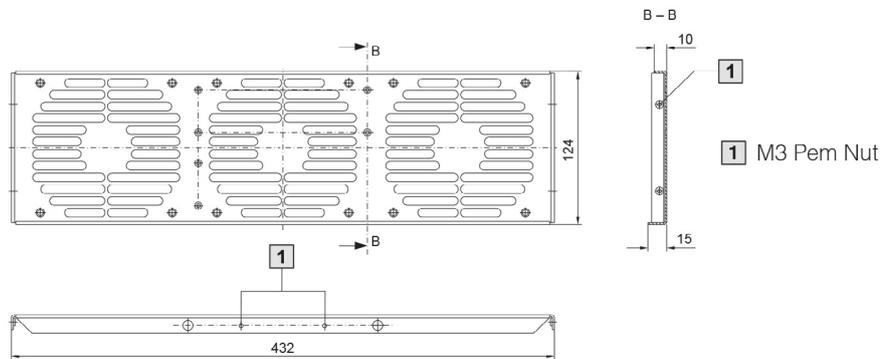

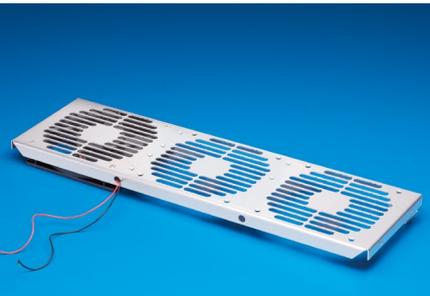

1.5 mm aluminium, anodised

U	For PCB depth mm	No. of fan mounting plates required	HP	Order No.
1	160	1	84	3684317
	220	1		
	280	2		
	340	2		
	400	3		

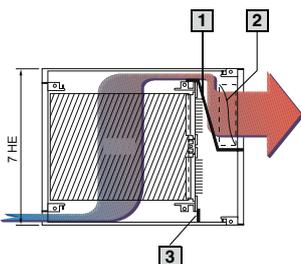

+ Also required

1 terminal block is required for each subrack.

Packs of	Order No.
1	3686805

Diagonal cooling from front to back

Diagonal air flow from front to back allows individual cooling of PCBs in vertical installation position. An air baffle and air partition ensure controlled air flow.

- 1** Air baffle, see page 137
- 2** Fan (mounted on the rear panel), see page 140
- 3** Air partition, see page 137

Air baffle

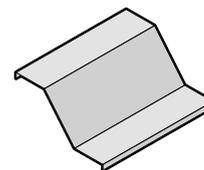

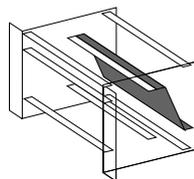

For controlled air flow in 7 U sub racks. For mounting on sub-rack side panels with the aid of mounting blocks.

Material
1 mm aluminium

EMC

COMPONENTS AND ACCESSORIES

CLIMATE CONTROL

HeiCool ECO with guide frame

HeiCool ECO – flexible und robust energy-saving cooling solution with mounting frame for easy insertion and removal within 19-inch cabinets.

Technical specifications

- 50 Hz/60 Hz
- Dimensions in accordance with IEC 60297-3, IEEE 1101.1
- Equipped with LED lamp for displaying the operating status
- Shock and vibration test according IEC 61587-1 (DL2V / DL2S) and EN 50155 (EN 61373 cat. 1, class B)
- Operating temperature: -20°C to 55°C
- Good EMC protection
- Certified according to EN 60950 (CE)

Fans

Flow rate 3 x 175 m³/h
Energy consumption 5 W per fan
Noise level 42 dB(A)

Material

Housing made of high-strength aluminium alloy

Note

Various installation options

Height (H) U	W HP	Side Panel Depth (mm)	Power	Order No.
1	84	305	115 VAC	9923861

HeiCool ECO for insertion

HeiCool ECO – flexible und robust energy-saving cooling solution. For classical installation into 19-inch cabinets. With reinforced front panel and double screw fastening for extra high stability.

Technical specifications

- 50 Hz/60 Hz
- Dimensions in accordance with IEC 60297-3, IEEE 1101.1
- Equipped with LED lamp for displaying the operating status
- Shock and vibration test according to IEC 61587-1 (DL2V / DL2S) and EN 50155 (EN 61373 cat. 1, class B)
- Operating temperature: -20°C to 55°C
- Very good EMC protection
- Certified according to EN 60950 (CE)

Fans

Flow rate 3 x 175 m³/h
Energy consumption 5 W per fan
Noise level 42 dB(A)

Material

1 mm aluminium, clear-chromated

For fans mm	Packs of	Order No.
80	1	3686359
120	1	3686329

Air block panel for unused slots

To seal unused slots and prevent unwanted airflow. The air block panel simply snaps into position on the guide rails.

Material

Polycarbonate
Self-extinguishing to UL 94-V0

Colour

Blue

Note

Not suitable for use in conjunction with guide rails with 1/2 HP offset.

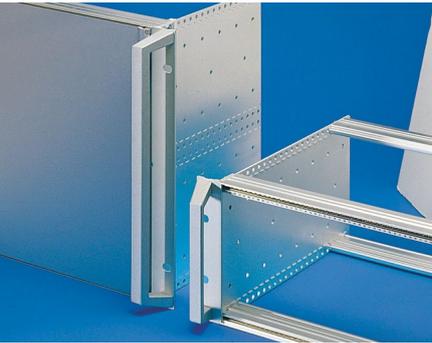

For keyable guide rail mm	Packs of	Order No.
160	1	3687924

COMPONENTS AND ACCESSORIES

HANDLES

Front handles, die-cast zinc

Suitable for all subracks

For attaching to the subrack flange with handle holes and on all component shelves.

Material

Die-cast zinc

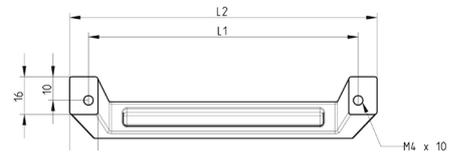

Supply includes

Assembly parts

Surface finish

Spray-finished, silver-grey

For Subracks	L1	L2	Packs of	Order No.
3 U and 4 U	114.5	130.5	2	3636010
6 U 7 U and 9 U	248	264	2	3666010

Front handles, steel

The handles are fitted onto the 482.6 mm (19") flanges. They allow easy withdrawal of the cases from the enclosure.

Material

Sheet steel, plated

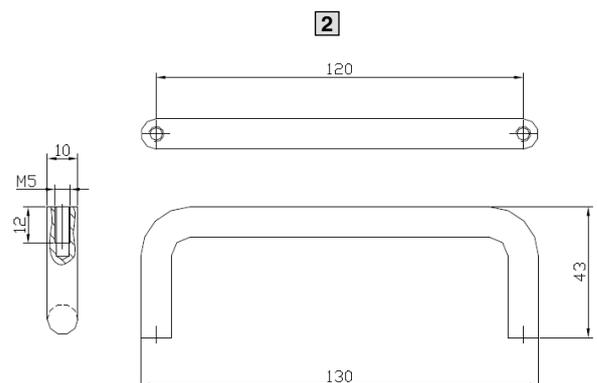

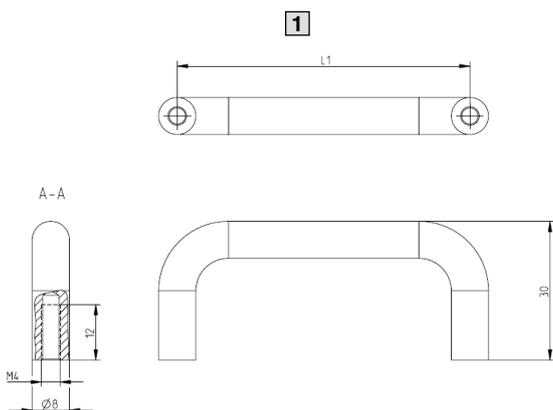

Supply includes

Assembly parts

Note

Not suitable for IPC.

For enclosure height (U)		Packs of	Order No.
1	1	2	3659540
2	1	2	3659020
4	2	2	3659240

Main switch

Main switch with LED Display-module.

Technical specifications

- Rocker switch 6 A/250 V, 2-pole, FASTON connections, (4.7 x 0.8 mm)
- VDE, UL, CSA, TÜV, SEMKO, DEMCO, SEV, NEMKO, SETI, BEAB approvals
- Insulation resistance: > 10 MΩ
- Test voltage: 1 kV
- Front panel: 21 x 15 mm
- Cut-out: 19.2 x 12.9 mm
- Installation depth: 17 mm

Max. current	Packs of	Order No.
6 A	1 St.	3687711

Filtered IEC mains inlet

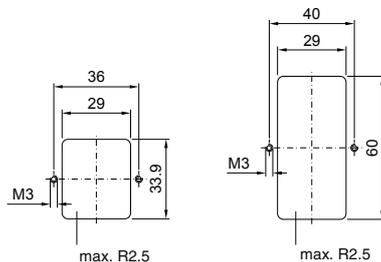

Combination module for mains input consisting of an IEC socket to IEC 60320 and IEC 60950 with line filter and 5 x 20 mm G fuse holder.

Technical specifications

- Metal enclosure for screw mounting
- Mains input: via IEC socket
- Mains output: via 3 FASTON contacts
- (L, N, PE, 6.3 x 0.8)
- Variants available with or without switch
- Temperature range: -25°C to +85°C

	Order No.	
	with switch	without switch
	3687709	3687710
Mains voltage max.	250 V AC	250 V AC
Leakage current	2 x 0.32 mA	500 µA
Max. current	6 A	6 A
Mounting holes	40 mm	36 mm
Installation depth	90 mm	56 mm
Cut-out	60 x 29 mm	33.9 x 29 mm
Approvals	VDE, SEMKO, SEV, UL, CSA	VDE

HeiPac power supplies for CPCI, plug-in

Plug-in AC/DC power supply for CompactPCI systems in 3 U and 6 U. DC/DC Converter and additional output levels on request.

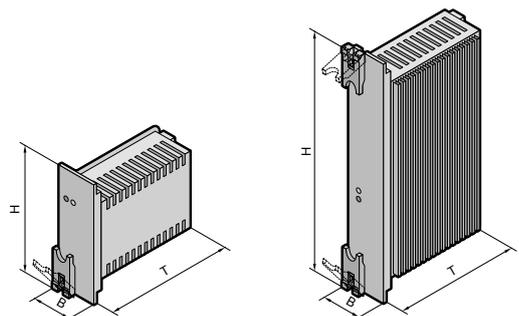

Technical specifications

- Input voltage 90-264 V AC
- 47-63 Hz
- 3.6 A max (250 W) or 7 A max (350 W)

Note

Further technical information can be found on our website.

TECHNOLOGY EXPERTISE

19-INCH PACKAGING SYSTEM

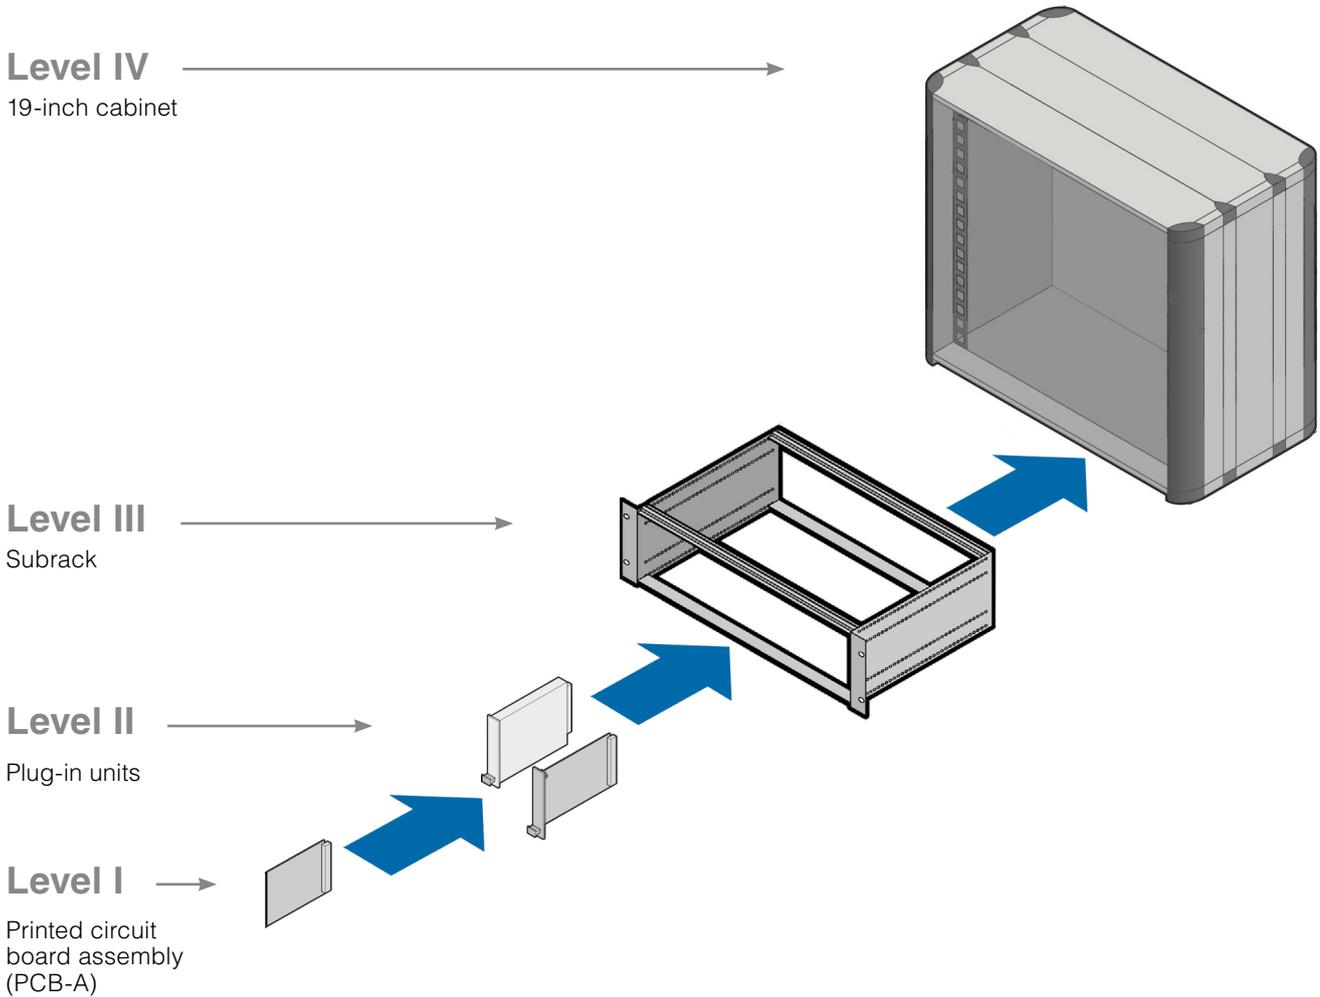

19-inch technology: dimensional coherence

The 19-inch packaging system is based on internationally applicable dimensional standards that describe the coordinated, modular system structure. The mechanical structure of the system is described in various parts of the series of standards IEC 60297.

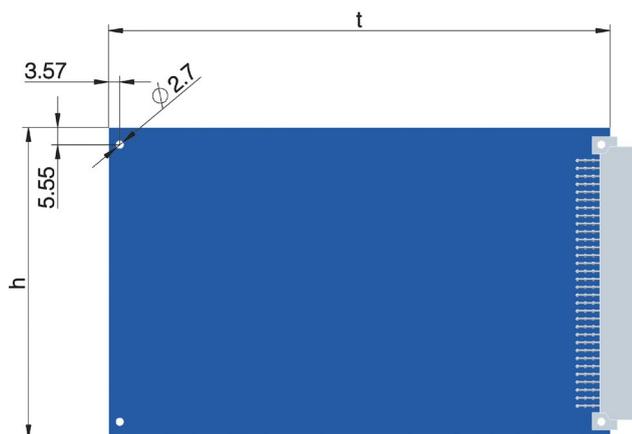

The objective of these provisions is to ensure that different devices and modules from all potential manufacturers can be combined and replaced without difficulty.

The 19-inch packaging system is now used in almost every area of industrial electronics: Systems and machine construction, energy technology, transportation, aerospace technology, medical technology, Information and communication technology and measurement and testing technology

More specifically, the 19-inch packaging system can be divided into the following four levels:

Level 1: Printed circuit board

Subrack height	PCB-A height $h + 0\text{ mm} - 0.3\text{ mm}$	PCB-A depth (mm) $t + 0\text{ mm} - 0.3\text{ mm}$			
		100 mm	160 mm	220 mm	280 mm
3 U	100 mm	-	x	x	-
6 U	233.35 mm	-	x	x	-
9 U	366.70 mm	-	x	x	-

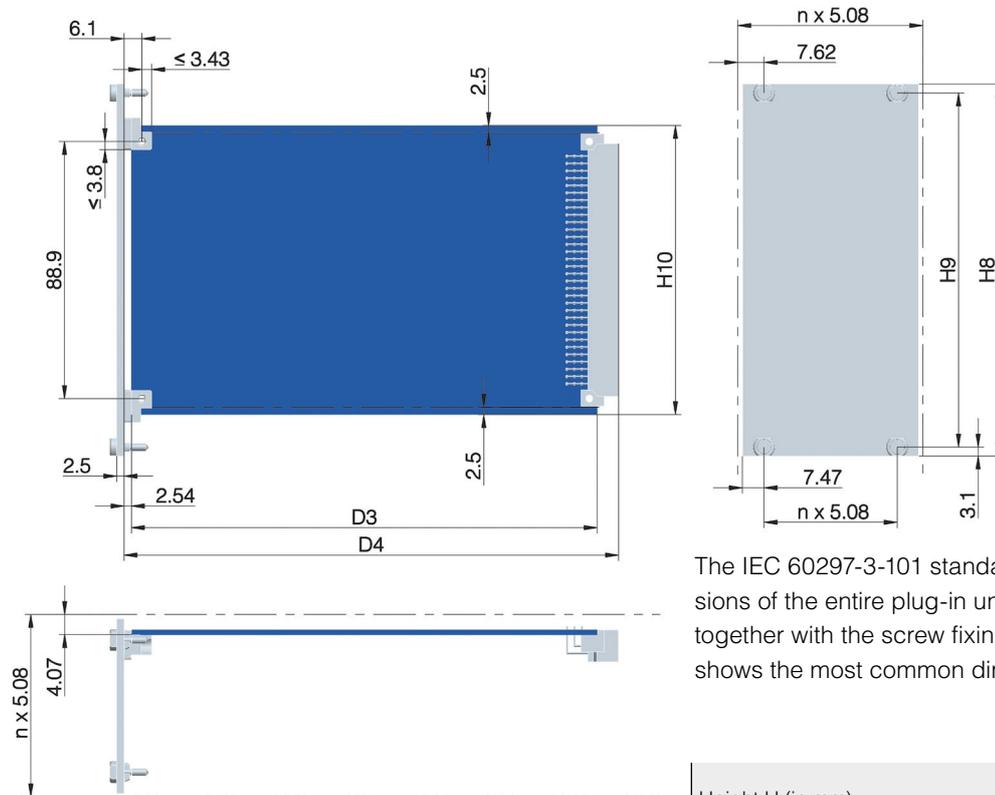

x most common dimensions

The PCB dimensions are defined on the basis of the eurocard format and are set forth in standard IEC 60297-3-101. Starting from a height of 100 mm and a depth of 160 mm as the basic dimensions, the height increases by multiples of one height unit (1 U = 44.45 mm) and the depth by multiples of 60 mm.

The table above shows the PCB formats most commonly used.

PCBs are generally 1.6 mm thick. Different, higher values must be coordinated between the user and the manufacturer to arrange suitable guide rails. Standard subrack depths are arranged in accordance with PCB depths of 160 mm, 220 mm and 280 mm.

Level 2: Module

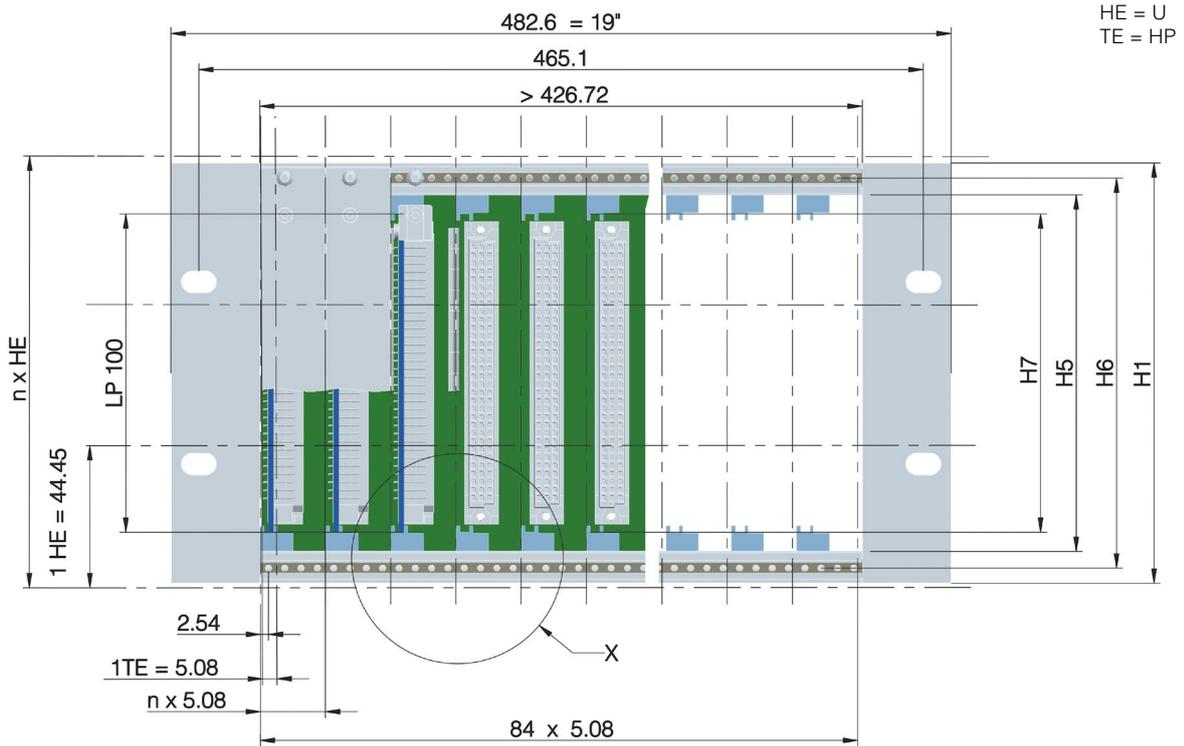

The IEC 60297-3-101 standard also describes the dimensions of the entire plug-in unit and associated front panel, together with the screw fixing points. The following table shows the most common dimensions.

Height H (in mm)				Depth D (in mm)			
Height units	3 U	6 U	9 U	Depth units			
$H8 \pm 0.15$	128.55	261.90	395.25	D3 - 0.3	160.00	220.00	280.00
$H9 \pm 0.2$	122.50	255.85	389.20	D4 ± 0.4	169.93	229.93	289.93
$H10 +0 -0.3$	100.00	233.35	366.70				

TECHNOLOGY EXPERTISE 19-INCH PACKAGING SYSTEM

Level 3: Subrack

Height units	3 U	4 U	5 U	6 U	7 U	9 U	11 U
H1 ± 0.4	132.55	177.00	221.45	265.90	310.35	399.25	488.15
H5 ≥	112.00	156.45	200.90	245.35	289.80	378.70	467.60
H6 ± 0.2	122.50	166.95	211.40	255.85	300.30	389.20	478.10
H7 + 0.5 -0	100.20	144.65	189.10	233.55	278.00	366.90	455.80

Width	84 HP (19-inch)	42 HP (1/2 19-inch)	21 HP (1/4 19-inch)
Card cage	426.72 mm	213.36 mm	106.68 mm
Flange	465.10 mm	251.70 mm	145.00 mm
Enclosure	482.60 mm	269.10 mm	162.40 mm

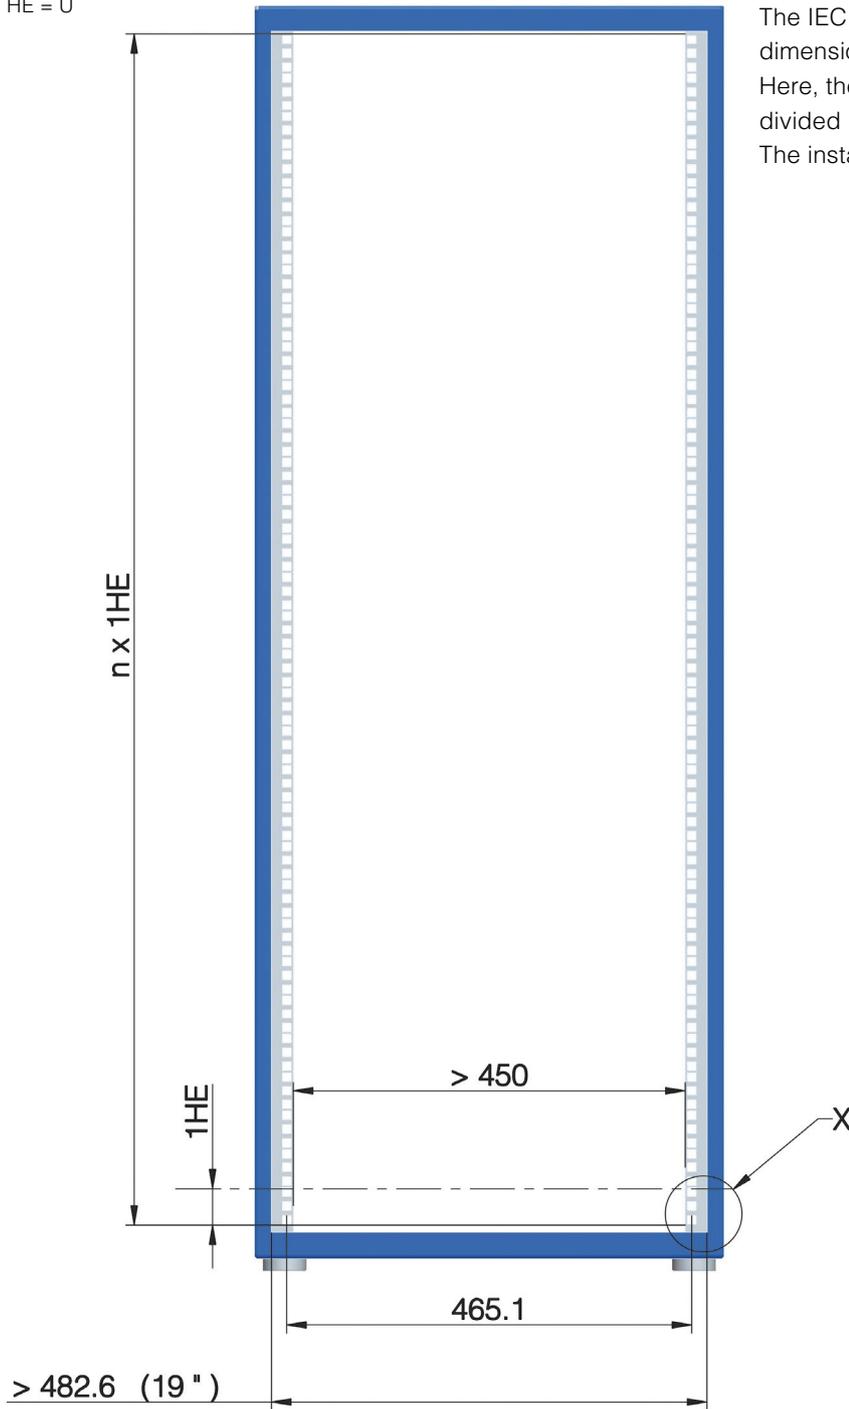

DIN EN 60297-3-101 provides a figure of 482.6 mm (19 inches) for the width of the subrack front. In practice, widths derived from this, such as 1/2 19-inch or 1/4 19-inch, are also common (see chart).

The maximum subrack height is given as a multiple of one height unit (1 U), or 44.45 mm. This ensures that the subrack height is coordinated with the height of the plug-in units used. Typical sizes are 3 U, 6 U and 9 U (refer to table).

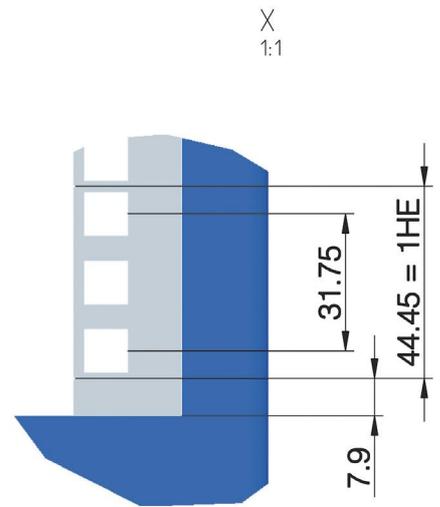

The installation space for the plug-in units is divided into horizontal pitch units (HP) of 5.08 mm (0.2 inch), or 84 HP for a subrack width of 19 inches.

Level 4: 19-inch cabinet

HE = U

The IEC 60297-3-100 standard describes the basic dimensions of the 19-inch cabinet. Here, the available space to fit the subracks is also divided into multiples of 1 U. The installation space must be at least 450 mm wide.

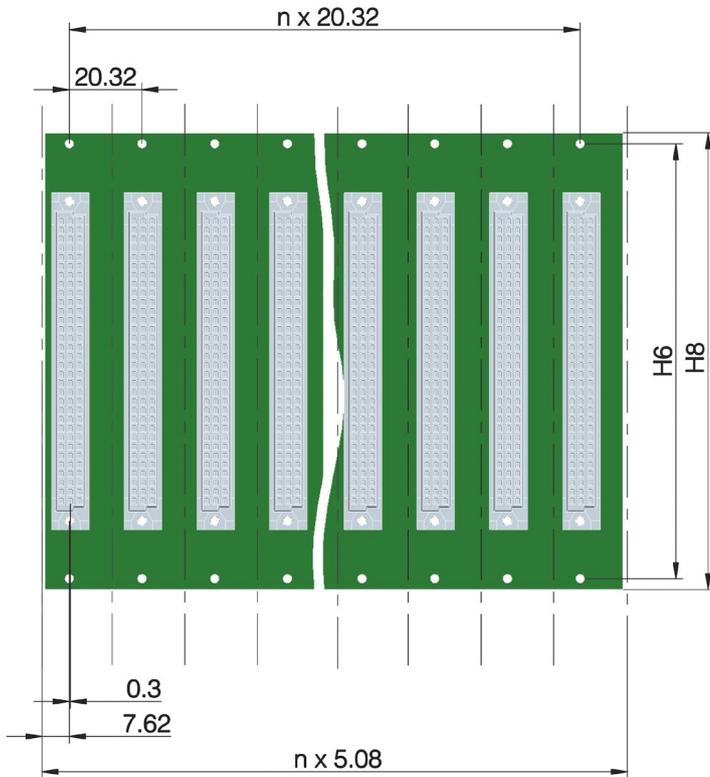

TECHNOLOGY EXPERTISE

19-INCH PACKAGING SYSTEM

Backplane

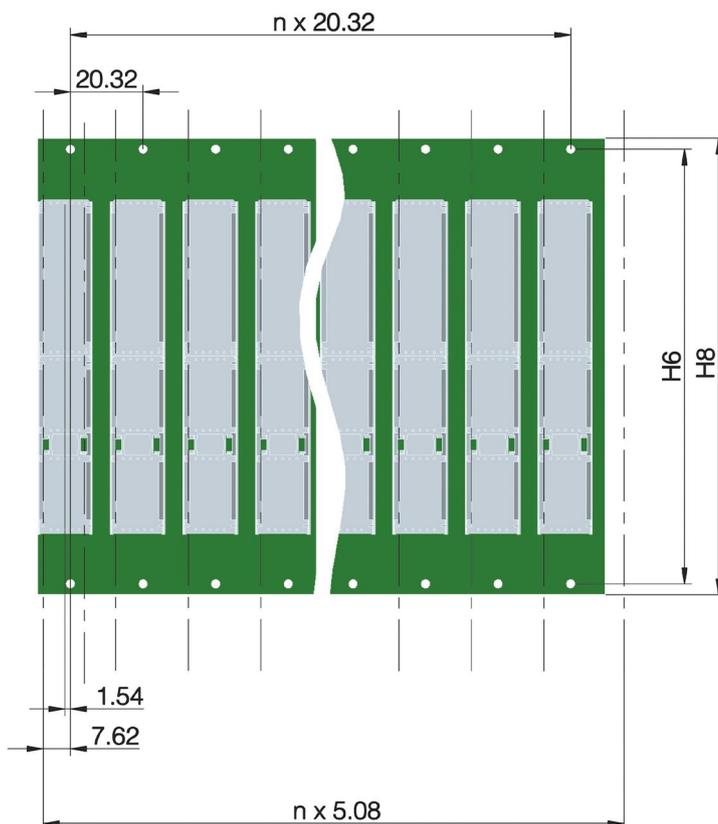

The IEC 60297-3-104 standard describes the dimensions of the backplanes for the most common height variations (refer to table).

Height units	3 U	6 U	9 U
H6 ± 0.2	122.50 mm	255.85 mm	389.20 mm
H8 ± 0.15	128.55 mm	261.90 mm	395.25 mm

Backplane with plug connector as per
DIN 41612/IEC 60603-2 and IEC 61076-4-113

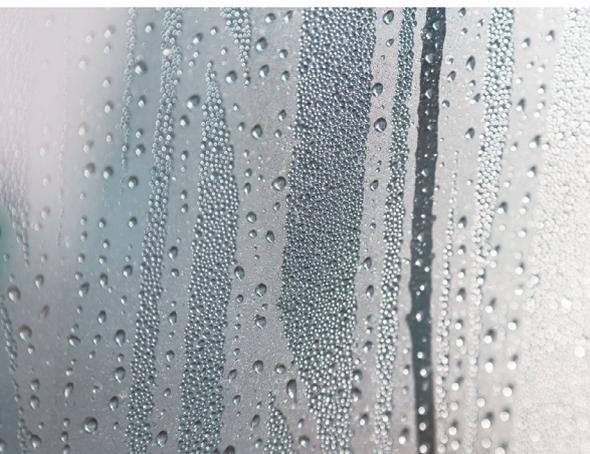

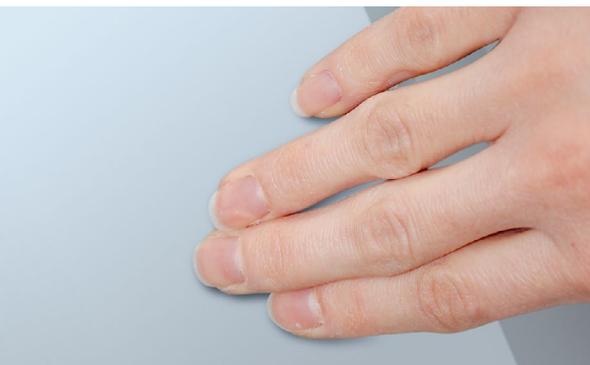

Typical application: VME/VME64 systems

Backplane with plug connector as per
IEC 61076-4-101

Typical application: CPCI systems

IP protection levels – chassis protection classes (IP code)

1st IP number

2nd IP number

Protection against solid objects

0	No protection
1	Protected against solid objects over 50 mm in diameter
2	Protected against solid objects over 12.5 mm in diameter
3	Protected against solid objects over 2.5 mm in diameter
4	Protected against solid objects over 1.0 mm in diameter
5	Protected against dust (limited ingress, no harmful deposit)
6	Totally protected against dust

Protection against contact

0	No protection
1	Protected against contact with back of hand
2	Protected against contact with fingers
3	Protected against tools
4	Protected against wires
5	Complete protection against contact
6	Complete protection against contact

Protection against liquid

0	No protection
1	Protected against vertically falling drops of water, e.g. condensation
2	Protected against direct sprays of water up to 15 degrees from vertical
3	Protected against sprays up to 60 degrees from vertical
4	Protected against water sprayed from all directions
5	Protected against low-pressure jets of water from all directions
6	Protected against strong jets of water
7	Protected against the effects of short-term submersion
8	Protected against long periods of submersion

Examples of typical protection classes used in industry:

IP20 - For a touch-proof device that is mounted, for example, on a DIN rail or mounting plate in a control cabinet.

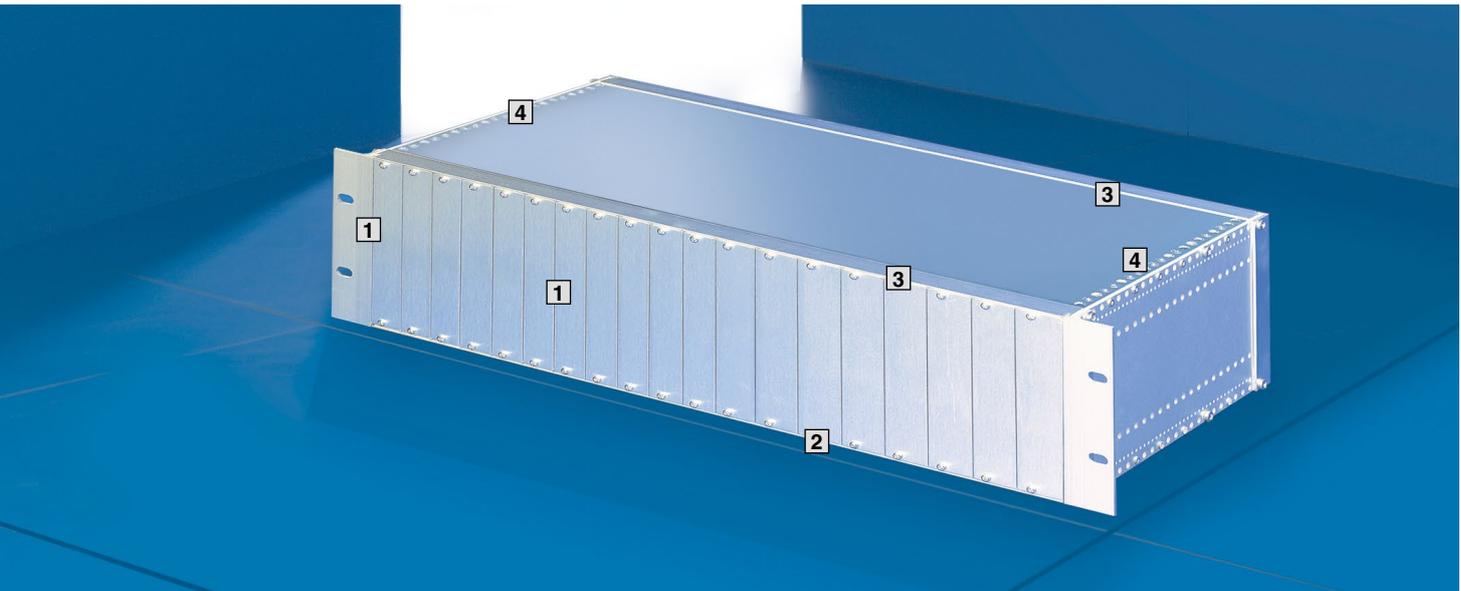

IP54 - For a splash-proof device, which is placed outside the control cabinet, e.g. a table-top device.

IP67 - For a waterproof device which can be used for permanent outdoor use, e.g. a control cabinet.

IP68 - For a waterproof device which can be used under water e.g. a watch or a current smartphone.

TECHNOLOGY EXPERTISE PROTECTION REQUIREMENTS

Electromagnetic compatibility (EMC)

- 1 EMC gaskets, vertical
- 2 EMC gaskets, horizontal
- 3 EMC gaskets for cover plates
- 4 Mounting blocks

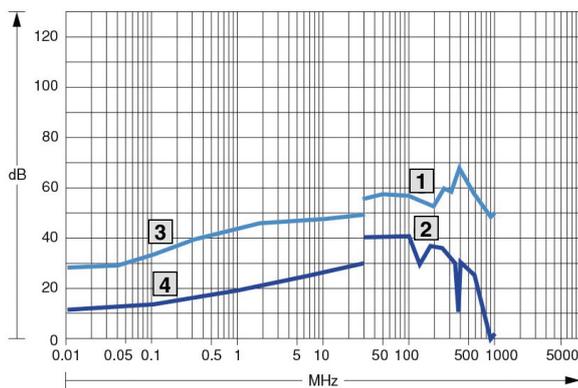

EMC (electromagnetic compatibility) refers to the ability of an electrical device to function properly in its electromagnetic environment without influencing this environment more than is admissible. These requirements were taken into account when developing the HEITEC subracks.

They are made entirely from metal and coated with a conductive surface finish. Stainless steel EMC gaskets ensure a conductive connection between the separate parts.

Testing of measurements of the shielding effectiveness of empty chassis is based on DIN EN 61587-3 or military standards, e.g. MIL STD 285 (US) or VG 95373 Part 15 (GER).

International EMC standards are published mainly by IEC (International Electrotechnical Commission) and CISPR (International Special Committee on Radio Interference).

Key series of EMC standards with global importance: IEC 61000.

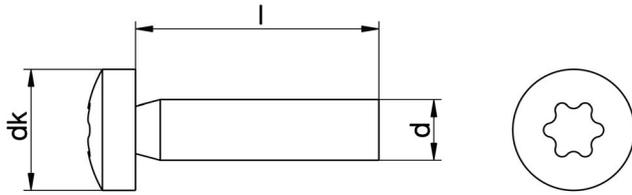

- MHz = Frequency
- dB = HF attenuation
- 1 E-Field = electric field (V/m)
EMC chassis
- 2 E-Field standard chassis
- 3 H-Field = magnetic field (A/m)
EMC chassis
- 4 H-Field standard chassis

The diagram above shows the extent to which EMC shielding influences the attenuation of the electromagnetic field. The attenuation of a standard chassis with no suitable EMC components is thus much lower than that of a HeiPac Vario EMC subrack.

Of particular interest is the shielding factor provided by the attenuation.

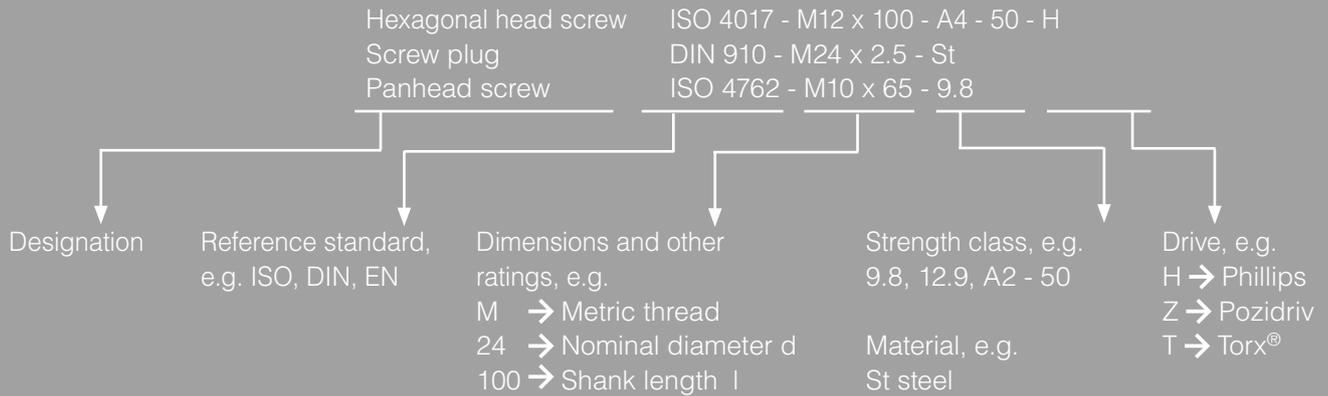

HF attenuation (dB)	Shielding (%)
6	50
20	90
40	99
60	99.9

Screws

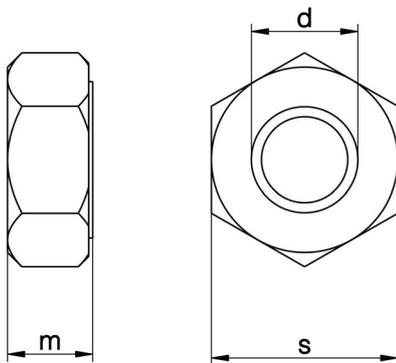

Screws are used to achieve a tight connection between two or more components. They form part of a screw gear consisting of two standardised, paired components. Friction on the wedge-shaped thread under load prevents the screws from coming loose.

Examples

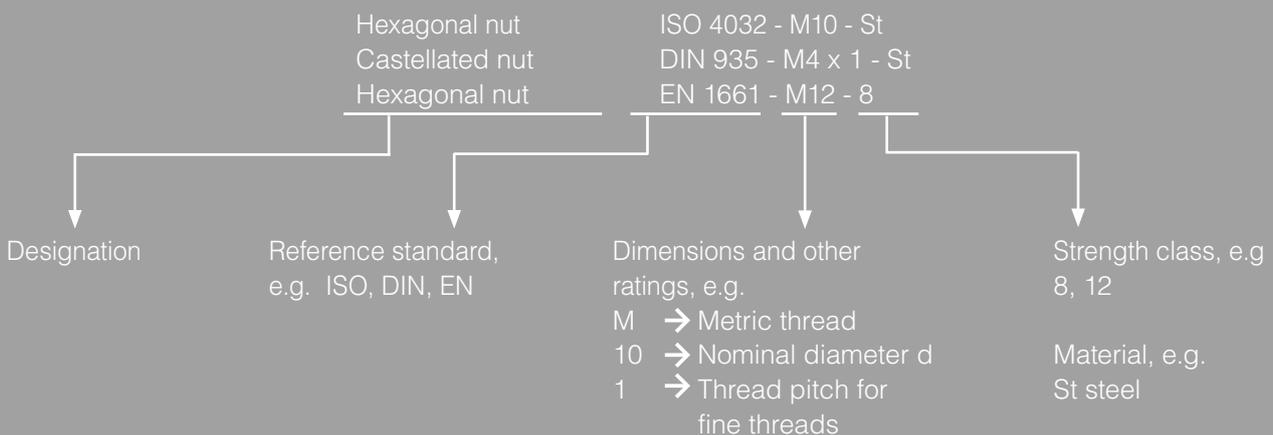

Nuts

Nuts are the counterpart to the screws. They have a standardised inside thread that matches the thread of the screw. The prismatic outside contour is shaped to accommodate a wrench, which is used to tighten the nut. In terms of dimensions, the height of a nut is approximately half the width across the flats.

Examples

TECHNOLOGY EXPERTISE

INDEX

LIST OF TECHNICAL TERMS

A

	Page
Accessories	
– for subracks	72
– HeiCase	56
– HeiPac Vario-Module	47
– IPC-Chassis	67
AC-fans	
– for subracks	141
– for microcomputer systems	141
Adaptor rail	
– rear, centre	86
Air baffle	137
Air block panel	108
Air partition	137
Aluminium front door	
– vertically hinged, for HeiCase	57
Aluminium centre part	
– for three-part guide rails	107
Assembly parts	
– for Electronic-Packaging	148
AT/ATX power supply for IPC	67, 146

B

	Page
Bottom covers	
– for HeiPac Vario-Module	47

C

	Page
Cable Routings, 19-inch	
– Cable entry panel with edge protection	62
– Cable entry panel with tray and edge protection	62
– Cable tray	62
– Cable entry panel with brush strip and edge protection	63
– Cable tie strip panel	63
– Cable management panel	63
Carrying handle/support stand	
– for HeiPac Vario-Module	51
Carrying Handles	
– for HeiCase	58
– for HeiPac Vario-Module	49
Climate Control	136
Components for EMC Installation, for subracks	96

Component shelves, 19-inch	
– Component shelf	61
– on telescopic rails	61
– 26 mm height	61
– Document drawer	61
Conductive strip	95
Contact strip, EMC	96
Connection cable	
– for AC fans	141
Connection pin for injector/extractor handles types IV, IVs and VII	120
Contact springs	104
Covers	
– for lateral space	123
– for HeiPac Vario-Module	47
– for mezzanine front panels	131
– for subracks	111

D

	Page
DC-fan	
– for subracks	141
Door cut-out trim	
– for subracks	130

E

	Page
Earthing set for HeiPac Vario-Module	50
EMC	
– Expansion accessories	96
– Gaskets	93, 96
– Front/rear panels for ventilation	137
– Front panel, anodised/chromated	125
– Front panels, handles	116
– Front panels hinged	130
– Contact strip	96
– Rear panels for fan installation	138
– Shielding plate for fans	143
– Seals for mezzanine cut-outs	131
End pieces	
– for three-part guide rails	107
– for guide rails, aluminium	105
ESD contacts	109
Extractor handle	
– Type I and Type II	118
– Type III	123

F

	Page
Fan mounting plate	136
Fans	
– AC fans	140
– DC fans	141
Feet	
– for HeiCase	60
– for HeiPac Vario-Module	48
Flange 19-inch	74
Finger guard	
– for AC/DC fans	142
Filtered IEC mains inlet	145
Front handles	144
Front panels	
– for type III extractor handle	123
– for handles type I, II, IV, IVs or VII	116
– for handles type V and VI	125
– with handles type I or II	115
– with handles type V and PCB holder	124
– for ATX power supply	147
– for subracks	115
– to conceal the vertical support	102
Front panel with slotted holes for HeiCase, 19-inch	64
Front corner trims	
– for HeiPac Vario-Module	49
Front door	
– for HeiCase	57
Front flanges	
– for HeiPac Vario-Module	48
Front/rear panels for ventilation	137

G

	Page
Ground contact	106
Guide rails	
– for 4.4-inch	108
– for subracks	104
– for drive modules	133

H

	Page
Handles	
– for front panels	115
– for subracks	144
– Type V and VI	126
HeiBox ALU 1 U	36
HeiBox ECO 1 U	38
HeiCase	52

U

Page

U-channel front panels	
– for handles type I, II, IV, IVs, or VII	117
– for handles type V and VI	126
– With extractor type I, II or injector / extractor type IV	116
Universal holder	
– for front panel support	124

V

Page

Vario, HeiPac	20
Vario, HeiPac EMC	20
Vario-Module, HeiPac	40
Vertical divider kit	102
Vertical support	102

Z

Page

Z rail for connector	94
